GENERAL LIU TO WITHDRAW

Generally Believed That Expedition Against Him Will Be Called Off.

ILL-ADVISED APPOINTMENTS

Chinamen With Pronounced Anti-Foreign Tendencies Are Getting Into Office--French Troops to Leave.

Peking April 22 General Voyron the commander of the French troops in China has informed General Chaffee that 10,000 French soldiers will leave China next May

Hung Chang believes that the Chinese troops under General Liu will be withdrawn over the boundary marking the territory claimed by Field Marshal von Waldersee as the sphere of operations of the allies as the government of Shansi province received telegraphic instructions nearly a week ago which could have convoked this order to the troops in question by last Friday at the latest

The majority of the French and German newspaper correspondents accompanying the expedition directed against General Liu and which has been marching at Tao ting fu returned to Peking today believing that the expedition would be left

Unwise Appointments

Hsi Liang for merly governor of the province of Shansi has been appointed governor of the province of Hu pei The foreign consuls at Han kow capital of the province of Hu pei have protested against the appointment of Chang Chi Tung viceroy of Han kow and have sent him a telegram advising him to stop proceeding in the matter of Hsi Liang's appointment

The numerous appointments of Chinamen with pronounced tendencies are causing comment at Peking Even the foreign ministers admit that so many appointments of this character are ill advised while the missionaries and other civilians are alarmed for the future

Difference of Opinion

It is the opinion of Mr Rockhill the American special commissioner that the foreign troops may now commence leaving China with perfect safety and that the announcement that 10,000 French troops are to leave in May causes fear among the French residents and this fear is greater among the French native converts to Christianity who inform the priests that they are daily threatened with what will happen to them when the foreigners leave

The views of the foreign ministers on the withdrawal of the troops is not shared by the great majority of the foreign residents The ministers argue that some of these latter have business reasons and others would have to vacate the fire buildings they are now occupying rent free when the troops go

Rebellion Denied

A personage from Shansi further has closely connected with the court circles that the reported fleeing from Taiyuan fu of the Empress Dowager and the Emperor of China from the capital to Tung Fu Siang said to the empress

All that your servant has done has been to obey the orders of the court He will die upon the battlefield in your service if it be your pleasure

If the foreigners your servant were committed to death he would die unwillingly

To this the empress replied

Let your heart be at peace I would rather lose my realm and my life than you I will surely devise a plan for your protection

Advisers Not in Accord

The same information says that the court advisers are not in accord Li Chuang Lin a notorious reactionary and president of the board of trade argues in favor of subduing the barbarians while others advise delay in returning to Peking Only Wo Ai Weng Shao and Sun Chia Nai urge immediate acceptance of the terms offered privately Two of the foreign powers have separately agreed to extend to the court the full protection should necessity arise of every soldier they have

At a recent meeting of the council both the emperor and empress wept frequently The dowager empress said that each day of absence was a day when she could neither eat nor sleep in peace The emperor said that Prince Kung was the Prince Ching and that he could not bear to abandon it

Sir Robert Hart's plan for the increase of the revenue of China would bring in 20,000,000 taels annually But the foreigners and business men of China object to this plan already saying that under it the foreign business houses will pay the greater portion of the indemnity

IMPORTANT SETTLEMENT

Litigation Over Strickler Tunnel Settled by City Council.

AFTER A LONG DISCUSSION

Settlement Is on Basis of Payment by the City of Approximately $20,000 --Claims Over $200,000.

With the drawing of a warrant for about $20,000 an important chapter in the history of Colorado Springs will have come to a close

One of the most portentous lawsuits ever adopted by the city council of Colorado Springs that dated back when Mayor Jackson was the head of the city government in which the city had become involved by reason of the construction of the Stricker tunnel is settled and finally disposed of

The resolution was adopted after an all night session which began about an hour and a quarter after which was the last of some half dozen or more Executive sessions at which the proposition for settlement has been thrust on before the aldermen by the adoption of this resolution the council settles for approximately $20,000 of the $200,000 claimed It is not probable that a jury would have given a verdict for any thing like $40,000 to $50,000

In the suit of Warfield vs the City of Colorado Springs the plaintiff was the president of the Fidelity and Trust Company of Maryland which company as the successor of George W Jackson and the firm of Wilson & Jackson the original contractors for the tunnel project All claims against the city by Wilson & Jackson George W Jackson the Pike's Peak Power company and all others could link anything against the city by reason of the tunnel construction had been assigned to this plaintiff

By the resolution which was adopted the city attorney of Colorado Springs is instructed to settle the suit of Warfield vs the City of Colorado Springs by allowing judgment to be entered against the defendant in the sum of $19,[illegible] and the interest from the date of filing the suit The city attorney is further instructed not to appeal the case of the Pike's Peak Power company vs the City of Colorado Springs The city attorney is further instructed to dismiss at the plaintiff's cost the suit of the City of Colorado Springs vs the Fidelity and Trust Co George W Jackson et al The city attorney is instructed to accept from George W Jackson in consideration of the said $19,[illegible] and interest his receipt in full for all claims against the city

By this settlement the city council allows judgment to be entered on the first cause of action set forth in the complaint in the suit by Warfield against the city for [illegible] as one of four By [illegible] the amount of money the city is paying is just about what would have been certain to be due contractors at the present time if there had been no legal complications Money held back by the city on account of the failure to insure the completion of the work in the reserve fund was provided for in the contract and money claimed by the contractors for work done without the approval of the city engineer in a majority of the cases the council that as it existed at the time would have amounted to just about what was allowed in this cause of action Therefore under the settlement the city pays for the tunnel just about the work of contractors the sum $19,800 authorized by the city [illegible] at their [illegible] meetings

The three causes of action which are disposed of by the entering of a judgment against the city on the first cause aggregate about $1,000

The second cause set forth a claim for $40,000 which was [illegible] claimed for cement and concrete work which the city engineer ordered in instructions from the city council

The third cause set forth a claim for $[illegible] for expenditures made by the contractors in making a detour from the originally specified course of the tunnel

The fourth cause set forth a claim for $100,000 alleged to be due the contractors because of the damage they sustained by reason of the difference between the actual character of the rock through which the tunnel was driven and the character originally represented to the contractors when the contract was entered into

In the effecting of this settlement the interests of the city were in the hands of City Attorney Shepard and ex City Attorney W S Morris the latter having brought the matter practically to a settlement before going out of office and having continued associated with the city attorney in the litigation until the settlement proposition should be disposed of Attorneys Hughes and Stevenson of Denver and H M Blackmer of Colorado Springs who have represented the contractors and the Pike's Peak Power company throughout the litigation had the settlement in hand for the plaintiff in the [illegible]

REFUSAL TO QUASH THE INDICTMENTS FOR LIBEL

Special to the Gazette

Denver April 22.—Judge Mullins took just three and one half minutes this morning in giving his decision upon a motion the argument of which occupied three and one half days last week The decision was on the motion to quash the indictments against Crawford Hill and Editor Stapleton in the famous Patterson libel suit In the decision the judge refuses to quash the indictments so the cases must go to trial The decision was as follows

State of Colorado County of Arapahoe ss.

In the District Court.

The People of the state of Colorado vers Crawford Hill William Stapleton and The Republican Publishing company a corporation—no 1[illegible]

The Court The information in this case charged the defendants with having violated the provisions of section 1313 of the general statutes of this state and it goes that Crawford Hill William Stapleton and The Republican Publishing company a corporation unlawfully and maliciously contrived and intended to willfully and defame him the said Thomas M Patterson and bring him into public scandal and disgrace and to injure and aggrieve him unlawfully maliciously and wilfully by writing composing printing and publishing a certain scandalous false malicious defamatory libel of and concerning the said Thomas M Patterson in the form of a newspaper article and the article recited the publication and newspaper article alleged to contain the libelous and defamatory words

The defendants file a motion in this case to quash the information on seven grounds but two or three were urged for serious consideration The state in this case contends that the article is libelous per se and in this view I concur and while the objections of the defense to certain innuendos and innuendoes are good in some cases I believe in this case that the allegations and innuendoes are entirely immaterial and may be rejected as surplusage For words to be libelous per se as is said in Tillson vs Robbins 68 Maine p it is not necessary they should import or charge a crime The action is nevertheless maintainable if the published article is such as if believed would naturally tend to expose the injured party to public hatred contempt and ridicule It is with some hesitation I undertake to overrule the decision of Judge Allen in a similar case heretofore heard in this court but I feel that his decision is so incompatible with my view of the law that it is useless to endeavor to harmonize them and I must interpret the law as I understand it

It is urged and there may be at least a temptation in this particular case for the court to adhere to the doctrine laid down by Judge Allen in his ruling in a former case because the injured party in this instance has not only urged and advocated the views therein set forth but in addition has bestowed false praise on that interpretation of the law which if applied to this particular case would be grounds for quashing the information but that is not the theory on which the laws are interpreted and I shall hold in this case that the information is good and sufficient and the motion to quash will be denied

As soon as the court had finished reading Judge France for the defense took an exception to the ruling The time set for proceeding with the trial is Monday May 13 The two defendants were ordered to stand up and Judge Mulling asked each Are you guilty or not guilty? Both men plead not guilty The defense made a motion to quash the indictment against The Republican Publishing Co and the argument on this motion was set for next Saturday morning at 10 o'clock

This ended the day's proceedings and all parties concerned left the court room The decision was not a surprise to the defense

THE MISSOURI PACIFIC CAPITAL STOCK INCREASED

New York April 22—The directors of the Missouri Pacific railroad at a meeting today authorized an increase of $30,000,000 in the capital stock, making the total authorized $100,000,000 A stockholders meeting will be held shortly to ratify this action

It was reported that a large part of the new stock would be available for taking up Denver & Rio Grande preferred and common shares Information as to the price of issue or other details could not be obtained from the company's offices.

The Missouri Pacific's present outstanding capital is $[illegible] The authorized amount was increased to $[illegible] about a year ago but it was then stated that the increase was made because Missouri laws required a certain ratio between the bonds and stocks of corporations to be maintained

The new stock then authorized has not yet been issued up to the present time The Denver & Rio Grande stock outstanding is $30,000,000 common and $29,600,000 pfd The latter issue however will be increased to $44,000,000 at the special shareholders meeting called for May 15 to provide for the Rio Grande Western purchase Of this stock $12,500,000 is to be issued at once for cash for the Rio Grande Western common shares and presumably the greater share of the amount reserved will be held for exchanging Rio Grande Western preferred stock

If Missouri Pacific proposed to completely absorb the Denver & Rio Grande railroad therefore the greater part of the unissued stock would be required for that purpose

ROBBED A SALOON

Seattle Wash April 22.—Two masked robbers successfully held up the saloon of Harry Collins at Newcastle last night and escaped with a cash booty of $2,850 There is no trace of the highwaymen though a half dozen deputy sheriffs reinforced by scores of armed citizens are scouring the country for a trace of the robbers.

THE DEATH OF E. S. NETTLETON

Once State Engineer--He Laid Out the Towns of Colorado Springs Manitou and Greeley

Denver April [illegible]—E S Nettleton for the past two years connected with the department of agriculture in Washington as an expert on matters pertaining to irrigation died in the Homeopathic hospital in this city to night of heart failure He was 6[illegible] years of age About a week ago in La Junta Colo Mr Nettleton overexerted himself in running for a train and upon his arrival here was taken to the residence of his daughter where he remained until his death

Mr Nettleton was one of the first prominent engineers in the west and was active in the promotion of irrigation enterprises He was at one time chief engineer of Colorado and laid out the towns of Colorado Springs, Manitou and Greeley His daughter Mrs W S Hickard of Kansas City survives him.

DELCASSE IN RUSSIA

St Petersburg April [illegible]—The French foreign minister M Delcasse has arrived here from Paris with his family he will be [illegible] days in the city and will be at Czar's Skoe Selo where he will receive him in audience at the Tsarskoe Selo

ADMITTED TO PRACTICE

Special to the Gazette

Washington D C April 22—Henry C Hall K F Babbitt and Rufus C Thayer of Colorado Springs were today admitted to practice before the Interior department

Hon C C Hall of Colorado Springs is the guest of his uncle Senator C D Clark of Wyoming

Theodore F Wilson of Colorado was today appointed copyist in the pension office

TELEPHONE COMBINE

Chicago April 22—President John M Clark of the Chicago Telephone company admitted that active measures were under way to organize the telephone business of the country into one large concern with headquarters in this city Mr Clark declined to state any of the details It is claimed that the combination will effect the telephone business in the following cities New York Boston Pittsburg Duluth Milwaukee Chicago Buffalo Cincinnati St Paul Detroit Philadelphia St Louis Denver and Minneapolis

GUGGENHEIMS ADMITTED

Daniel Elected Chairman and Simon Secretary of Smelter Board of Directors.

New York April 22—An adjourned meeting of the directors of the American Smelting & Refining company was held today and the by laws were amended to permit of a representation in the directorate of the Guggenheim interests whose plant was recently absorbed by the company The number of directors was increased from 16 to 21 the new members being five of the Guggenheim brothers Daniel Guggenheim was elected chairman of the board and Simon Guggenheim secretary

MILITARY ACTIVITY IS BEGINNING IN MANCHURIA

London April 22—According to a dispatch from St Petersburg to the Daily Mail official information has been received that renewed military activity is beginning in Manchuria Chinese troops are strongly entrenched at three points around Mukden They are armed with good Mauser rifles and have thirty Krupp guns

To the east west of Mukden near Tarchaken there are 1[illegible],000 men under the chief Boxer General Lutanz To the northwest near Kulo there are 6,000 Chinese under the former governor of Mukden To the east and in Mongolia and near the Inshan mountains there are 9,000 more under the Chinese general Schu

Admiral Alexeff has accordingly organized an expedition under General Zerpenski consisting of two regiments and five Sotnias of cossacks sixteen guns and a body of volunteers to operate against the three points mentioned The first movement was successfully carried out in the beginning of April Kulo which is 50 kilometers from Mukden was stormed and the ex governor of Mukden was taken prisoner

Owing to the departure of the most of the Russian troops from Mukden the latter city has become very unsafe Almost nightly Russian sentinels are found shot in the back

In the action at Kulo the Russians lost thirteen men killed and four officers and eighteen men wounded The advance toward the Turchausen position was then begun The situation in southern Manchuria is disquieting and another advance of Russian troops will be made in the early spring

LITTLE DAMAGE AT BUFFALO

Buffalo N Y April 22—Detailed inspection of the buildings of the Pan-American exposition today showed that the only real damage done by the heavy winds and snow of Saturday night was the breaking of some skylights in the north conservatory of the horticultural building This damage was done by the dropping of quantities of snow from the roof of the graphic arts building

Concerning the outdoor floral display Architect Ulrich maintains that the flowers already budding will not suffer from the storm A work seriously delayed by the snow is the laying of asphalt pavement The placing of exhibits will also be delayed to some extent because of the deep mud which makes transportation of heavy displays in the grounds practically impossible

AGUINALDO IS LEARNING

He Begins to Believe American Sovereignty Better Than Independence.

REITERATES HIS SINCERITY

Expresses Opinion That Other Leaders Will Surrender as Soon as They Understand Terms of Amnesty.

Manila April 22—A representative of the Associated Press visited Emilio Aguinaldo this afternoon at Malolos Bolando street where he was removed from the Malacanang and found him in a large room containing furniture with a table typewriting machine four secretaries and twenty chairs His wife was entertaining a number of Filipino ladies in the adjoining room while Aguinaldo smoking a cigar and chatting with Benito Legarda occupied the opposite couch Other present were Lieut Albert Youngberg and Mr Fisher Central MacArthur's private secretary

Aguinaldo whose bearing was courteous and dignified was dressed in white looked well and altogether made an excellent impression Legarda who but recently returned from the United States to end of the trip and Aguinaldo who seemed greatly interested

He inquired particularly as to what President McKinley said and seemed anxious to know what was thought of him in the United States

He was rather reluctant to talk for publication and considered every question particularly before answering He said he was doing all he could to assist in the pacification of the Filipinos and expressed himself as surprised at what the Americans had accomplished When he was first captured he went on to say he was greatly astonished to find that a majority of the Filipinos entertained the opinion that American sovereignty was preferable to independence but now he was inclined to believe that was the case He expressed that since the dissolution of the last congress and the declaration of guerrilla warfare the chiefs had operated to all interests and purpose independently They recognized him as commander in-chief sending him reports occasionally and he issued some orders but for the last seven months communication had been difficult, and he had been almost discouraged.

I am now urging in the strongest possible manner" said Aguinaldo "that all insurgents should surrender and swear allegiance to the United States.

He expressed the opinion that Tinio, Lacuna Mejiar and other irreconcilables will surrender as soon as they come to understand the nature of the amnesty offered them He said that to hoped when the work of pacification was complete and conditions were settled the prisoners in Guam would be released. After referring in great terms to the courteous treatment by authorities he declared his conviction that the civil government which would follow pacification would realize the highest hope of the Filipino

When questioned with regard to the hope that he would visit the United States he replied that he would like to do so but had made no plans as yet placing himself entirely at the disposal of the United States government,

In concluding the interview he observed Every word in my address to my countrymen the Filipinos came from my heart I hope the Americans believe thoroughly in my sincere efforts to secure a lasting and under American auspices to promote the welfare and prosperity of the Philippines

TWO MILLION LOSS BY FLOOD AT PITTSBURG

Pittsburg Pa April 22—The flood is over Notwithstanding the fact that early in the day there was every evidence of a renewal of the high water the announcement can be made authoritatively tonight that there is not the least danger of another rise at this point nor above for the present but towns on the Ohio river below here are not yet out of danger because of rains in the valley last night and today River points report the rain as now having ceased and the river falling The Ohio registered 19.8 at the dam here at o'clock and was falling Forecaster Ridgeway says it would require a steady downpour of rain for 24 hours to check the fall and from present indications such a thing is not likely

The rivers about this city are down so that the works along the banks are running There is a good deal of cleaning up to be done The flood brought in much slimy mud that it left when it receded and it will require a day or two to remove it from many of the mills and clean the machinery

The creeks and runs which did so much damage in the outlying districts on Saturday are back well within their banks tonight.

Carnegie is rapidly cleaning up and repairing bridges houses and roads that were destroyed when Chartiers creek ran wild The same state of affairs exists at McKees Rocks and other towns that the water reached

The railroads have recovered remarkably well from the effect of the flood and snow storm and the various lines have resumed operations to all points but for several days no pretensions for running on schedule will be made

A look over the ground after the flood shows that the losses will be fully as great as was estimated yesterday In and about Pittsburg it will probably take $1,000,000 to pay the total cost of the injury to property by the water and land slips Add to this the great loss to the railroad and manufacturing plants up and down the rivers in this immediate vicinity with the loss in wages to the workingmen and the total will not fall far short of $2,000,000

GUARDING THE KAISER FROM ANARCHIST PLOT

Berlin April 22—With reference to the statements cabled from the United States of a plot said to have been concocted against Emperor William and other European rulers by anarchists in Argentina and New Jersey extreme reticence is observed in official circles in Berlin

After careful investigation however a representative of the Associated Press ascertained in a reliable quarter that the Berlin police presidency issued an order April 6 for the arrest whenever or wherever caught of the alleged anarchist Rodolfo Romangoli alias Romalisso alias Langwick Muller The order simultaneously requested all inland and foreign authorities to assist in apprehending Romagnoli Photographs of the alleged anarchist with a minute description after the Bertillon method were furnished for identification

The information received by the Berlin authorities was that Romagnoli had been formally chosen by the alleged ones of conspirators in Paterson N J to murder Emperor William. They were furthermore informed that he left Buenos Ayres March 27 on the Norddeutsch Lloyd Hulk for Bremen. Whether this information is correct they have no means of knowing but since a portion of it came officially they are inclined to give it credence

Emperor William has been advised of the situation and has issued strict orders to the president of the Berlin police Baron von Windheim, to keep him informed as to all similar news, but that under no condition is the matter to be brought to the attention of the empress

It is a fact that for some months the Berlin police have kept a very close watch upon known anarchists in the city and unusually careful surveillance of arrivals known or suspected to be of anarchistic affiliations, Antonio Polybrello who was here until a few days ago fled to Berthem where he was arrested The Berlin authorities seem to know nothing about alleged plots against Emperor Nicholas and King Victor Emmanuel

EXPRESS TRAIN ROBBED BY BANDITS IN ARKANSAS

Memphis April 22.—The fast express train on the Choctaw Oklahoma and Gulf road which left Memphis at 11 40 o'clock tonight was held up by three masked bandits at Fort Smith Ark about midnight It is not known what booty the robbers secured, but a dispatch received at police headquarters stated that the express messenger and porter of the train were injured after resisting the robbers The express car is a total wreck Telegraph wires are down Wells Fargo company usually makes its heaviest shipments to the west on this train Police Sergeant Perry upon receipt of the telegram immediately posted officers along the river front with instructions to keep a sharp lookout for the bandits should they attempt to cross to the city The train left Memphis with a heavy passenger list The scene of the holdup is in a lonely railroad crossing about four miles from the river It is said that the negro porter was shot by one of the bandits and is in a serious condition

The train was in charge of Conductor Nelson one of the oldest employes of the road and Engineer Johnson The express messenger Menders is said to have been shot but it cannot be learned if any valuables were secured The negro porter Gould was shot and is in a critical condition The train was delayed about 90 minutes

Little Rock, Ark., April 22 General Superintendent John Harris of the Choctaw railroad received the news of the holdup at 1 o'clock this (Tuesday) morning and when seen he said as yet he had received no particulars He said he had authorized the payment of the reward before daylight with the Wells Fargo express officials and would in all probability offer a reward for the capture of the bandits He will leave here at 5 o'clock this morning on a special train for the scene of the holdup and will make every effort to capture them

The train will arrive at 5 50 this morning

BURGLAR AT SILVERTON

Caught While Taking Quantities of Stamps from Drawer in the Postoffice

Pueblo Colo., April 22—A special from Silverton to the Chieftain says that a burglar was captured last night while raiding the postoffice O L Leslie a clerk heard the thief break a rear window and later saw him taking quantities of stamps from the money drawer

Leslie fired with a 44 calibre Colt's and shot at the robber barely missing him Before he could shoot again the stranger threw up his hands and surrendered and was taken to jail He gave the name of Frank Pierre

AMERICAN SYNDICATE AND THE BRITISH LOAN

New York April 22—The Evening Post says

Fifty million dollars of Great Britain's new loan has been placed in the United States The National City bank, J P Morgan & Co Baring Magoun & Co and the New York Life Insurance comprise the syndicate that has taken the loan American subscriptions will probably aggregate much in excess of the $50,000,000 asked for as the interest yield of the issue commends places the loan in the front rank of high class government investments. It is announced this afternoon that most of the loan has been placed by the syndicate

Of the amount subscribed the New York Life Insurance company has bought outright $5,000,000 of the new loan Besides this it put in a separate subscription today for $5,000,000 more

It is understood that besides the $50,000,000 contracted for syndicate members have put in provisional bids for several millions more This was done to provide for the overflow subscriptions which were expected as soon as the details of the loan were announced The Mutual Life Insurance company was reported to have subscribed for $5,000,000 of the loan but this could not be confirmed

The British consols are offered in this country at 94½ per cent payable at various dates up to December 5 next bear interest at the rate of 2¾ per cent per annum up to April 5 1903 and afterwards at 2½ per cent per annum

OVER-SUBSCRIBED

London April 22—It is estimated in financial circles this evening that the £30,000,000 of the new loan offered to the public has already been covered five times and the subscriptions will probably close tomorrow

The premium on the new issue went up to 15 16 and afterwards fell to ½ After the £30,000,000 applied for prior to the issue of the prospectus it was reported this evening that J P Morgan & Co had taken £10,000,000 for their friends and friends

RIPLEY'S DENIAL OF A REPORTED CONSOLIDATION

Los Angeles Cal April 22—President E P Ripley of the Santa Fe who is in the city en route from Santa Barbara to Chicago after a month's rest at the former place was seen today in regard to the reported consolidation of the Atchison Topeka & Santa Fe with the Pennsylvania road

There is absolutely nothing in the report said Mr Ripley "It is possible that large stockholders of the one road may be purchasing shares of the other in the open market That I know nothing about But any report of a combination between the two roads is absolutely without foundation

When asked about the report that the Santa Fe would shortly declare a 4 per cent dividend Mr Ripley said the earnings would warrant such a dividend but that the matter of declaring it would rest with the board of directors

There is to be a meeting of the latter body in New York May 1 and at this meeting the question of successors to Chairman Aldace F Walker and Third Vice President James A Barr will be taken up Mr Ripley would express no opinion as to the probable result

KANSAS CITY MOVEMENT AGAINST SUNDAY SALOON

Kansas City April 22—Mrs. Carrie Nation's visit to Kansas City two Sundays ago and her arrest have resulted in a strong movement against the Sunday saloon that may end in bringing to a definite issue the fight between the Kansas joint smasher and the police Yesterday several local ministers preached strong sermons denouncing the police for making the arrest and Judge McAuley for fining Mrs Nation for no other reason than that she gathered a crowd around about her by denouncing a saloon keeper for exhibiting nude pictures in his place To day the Ministers alliance at their regular weekly meeting drafted a petition to the mayor and board of commissioners praying that they enforce the state law against Sunday opening, and a strenuous effort is to be made by church people generally to aid the movement

Judge McAuley when he fined Mrs. Nation $500 threatened her with arrest should she return to the city and Chief of Police Hayes emphasized the court's warning Notwithstanding this Mrs. Nation has agreed to lecture here before the Union mission Friday night and the people are said to have planned to bring the matter to an issue with the police department by meeting her at the depot with a brass band and escorting her about town

MACHINISTS DEMANDS

Chicago April 22.—Representatives of nearly 600 machinists in the employ of the Illinois Central railroad company are in session here today to formulate demands to be presented to the company tomorrow It is claimed that 90 per cent of the company's machinists are members of the International Association of Machinists by which this meeting was ordered The men demand higher wages a nine hour day and the employment of more helpers The boiler makers and blacksmiths union are said to be ready to act in unison with the machinists Vice President Harahan of the Illinois Central said today that the committee would be received by the company and any demands would be fairly considered

NEWS TOPICS FROM DENVER

Important Arkansas Valley Company Incorporated

ENFORCEMENT OF THE LAW

Sunday Violators Paid Heavy Fines in Police Court—A Soul Mater Checkmated

Denver Bureau
Colorado Springs Gazette

Denver April 22—Among the articles of incorporation filed with the secretary of state today was the Arkansas Valley Sugar Beet and Irrigation Land company. It is said that the company will absorb the Great Plains Water company and the Arkansas Land company, the new company is capitalized for $2,000,000 and the directors are Robert H. Wills and N. R. Coppman. It is said that eastern capital is back of the enterprise.

Magistrate Thomas nearly paid for his breakfast early this morning by fining six men who were arrested yesterday charged with violating the Sunday closing law. Here are a few of the fines imposed: Philip Kohn, proprietor of the P and C saloon, $50; Charles Berg, proprietor of the Club Building saloon, $50; T. Pennington, $100. Besides these he taxed a whole room full $10 and costs. The latter gentlemen were before him for the first time and he gave them to understand that they must not visit his place again. A number of cases were continued and in some instances the authorities seem to be determined to enforce the law. A decided reduction in the number of street walkers on the streets has also been noticed since Chief of Police Armstrong has assumed control. It is reported late this evening that the fire and police board has ordered Chief Armstrong to close the saloon of J. L. Pennington, 14 Curtis Street, and Philip Kunn in the basement of the Ernest and Cramer Building.

Soul Mater Checkmated

Thomas Sheridan, proprietor and publisher of a local paper in this city called The Cornishman, was arrested today by the United States authorities on the charge of using the mails to defraud. His paper is said to appeal to the weaker classes of people. It also indulges in articles on soul mates. He also gives advice to people through his paper and it is alleged that he can cure all mental and physical diseases. One of his publications reads: "Advice daily treatment for body and mind. Seek the WORD for success in business, home and in the unfoldment of the spirit of truth. Status your case or get none one to write it all out for you and enclose from $1 to $5 for a month's treatment. I heal through the SILENT WORD and the WORD is able to take care of itself. I speak the mental WORD in the SILENCE and this WORD goes forever." The above is a fair sample of his articles. In answering one municipal charge the publication says: "Dear Jack o' Sweetheart, etc. He will now be given an opportunity to perform a few of his miraculous cures on Uncle Sam."

Mrs. Annie Delany of Como, Colo., died in that city this morning as a result of being seriously burned by hot grease.

The superintendent of insurance has issued the following preliminary report of the insurance business done in Colorado during the fiscal year ending March 1, 1901:

Fire Insurance—Risks written $1,[illegible]; premiums received $1,[illegible]; losses paid $750,[illegible]; losses incurred $[illegible]; taxes paid $[illegible].

Life Insurance—Number of policies in force December 31, 1900, amounted to [illegible]; risks written [illegible]; losses paid $[illegible]; premiums received $[illegible]; expenses $[illegible]; taxes paid $[illegible].

Assessment Insurance—Risks written $11,[illegible]; premiums received $145,[illegible]; losses paid $[illegible]; losses incurred $[illegible]; expenses $12,[illegible]; taxes paid $[illegible].

Fidelity Casualty and Accident Company—Risks written $58,[illegible]; premiums received $[illegible]; losses incurred $[illegible]; losses paid $[illegible]; expenses $[illegible]; taxes paid $[illegible].

MUSICAL CLUB

Last Meeting of the Year Was Held Yesterday.

Fine Musical Programme Rendered—Kneisel Quartette Will be Heard Here May 17.

The last meeting of the season under the auspices of the Colorado Springs Musical club occurred yesterday afternoon in Perkins Fine Arts hall. Mrs. Jay A. Robinson, of Denver, gave a delightful song recital, assisted by Mr. Max Froelich, cellist and Mr. Rubin Goldmark, pianist.

If an abundance of genuine enthusiasm and appreciation ever made amends for a rather slim audience it was on that occasion. Mrs. Robinson and Mr. Goldmark have a large number of friends and admirers in this city. Yet, for some reason, the hall was not as well filled as had been anticipated it would be. All who remained away missed one of the greatest treats of the musical season.

The admirably selected programme was well calculated to illustrate the magnificent scope of Mrs. Robinson's melodious and powerful mezzo soprano voice, and Mr. Goldmark's matchless mastery of the piano.

It is difficult to single out the numbers most worthy of especial commendation, when each gave such perfect satisfaction to the auditors. Possibly, "Violets," by Cornelius; Mr. Goldmark's two compositions, "Bluebells" and "Complaint to the Moon;" "The Rose Leans Over the Pool," Chadwick, and "Thou'rt Like a Lovely Flower," Schlesinger.

"Time's Garden," by Goring Thomas, which Mrs. Robinson sang with cello obligato, met with most persistent applause as it well might for that exquisite composition gave occasion for blended voice and instrumental work that demonstrated the perfection of cultivation upon the part of each performer.

The cellist, Mr. Froelich, has recently arrived in the city, but he has achieved a fine musical reputation in Philadelphia where he was about to assume the leadership of the Symphony orchestra when ill health forced him to come to Colorado. Accompanied by Mr. Goldmark, Mr. Froelich played "Concerto in A—Minor," by Goltermann. He met with such enthusiasm that he was indeed to respond with a second selection and hereafter his music will be eagerly sought after by all who heard him yesterday.

The Kneisel Quartette will be heard here on May 17.

MEN'S SOFT SHIRTS

Are seasonable again. There are some reasons why you should come here to get yours. We didn't carry a single shirt over from last year. Had a few left, of course, but we sold them to a small dealer all in a bunch. So every shirt in stock is of this season's style. That's one advantage you get here over other places. Then, too, there's a greater variety here than was ever before shown in any store in this city, some exclusive designs, and the prices on the same grades are lower here than at other stores. Question this last assertion, and compare.

ELKS MINSTREL SHOW TO OCCUR ON MAY 6

The Elks' minstrel show, it was announced yesterday will be given in the opera house on May 6. There will be two performances, one in the afternoon and another in the evening.

Minstrelsy alone will not comprise the entertainment. One of the features will be the production of a farce, "The Chinese Boxers," which is said to be as mirth-provoking as "Charley's Aunt." The olio will comprise the usual buck and wing dancing, topical song, etc.

The stage settings will be elaborate and unique, and the costumes have been especially designed for the occasion. The opening chorus of the minstrels will be of forty voices with full orchestral accompaniment, and the most popular selections from "The Anvil," the "Singing Girl" and the "Idol's Eye" will be rendered. Messrs. Draper, Perrin, McMahon, Pauley, Edwards, Gilpore, Davis and Briscoe will be the end men, with Bob Hemenway as interlocutor. Al Jennson and Al Purdy will give a number of ballads.

Rehearsals are now well under way.

COMMISSIONERS DENY USE OF BAD STONE

The report that defective stone is being used in the construction of the new court house was emphatically denied yesterday by the county commissioners. The rumor is said to have been started by irresponsible persons.

It is true, as in the construction of any other big building, a certain amount of stone shipped is being rejected as unfit for use. Superintendent Anderson, whose duty it is to inspect all stone before it is put into place, has found defects in some of the blocks received at the court house, but none of it has been used. The commissioners and the architect are also keeping their eyes open for bad material and are positive that none has yet been put in position in the $200,000 building.

The stone is being received from the Kerr quarries in the Arkansas valley and is being crandelized after it arrives in this city. Greenlee and Son are the stone contractors.

The contractors and owners of the quarry have had a dispute about the measurement of the stone, and this, among other things, is said to have given rise to the rumors which have been circulated during the past few days.

BICYCLIST'S SLIDE STARTS A FIRE

Joseph Kearns, one of the clerks at the Alta Vista hotel, and a student at Colorado college, had a narrow escape from serious injury in a bicycle collision yesterday afternoon. He was on his way from the hotel to college and has just turned the corner at Tejon and Bijou streets, when he collided with another cyclist, who was riding down the wrong side of Tejon street.

The force of the collision threw both men from their wheels and both were badly bruised. The most remarkable thing in Kearns' experience—he slid along the street car rails on his side for about 15 feet and the friction set fire to his coat. A hole about three inches in diameter was burned in the garment, before the fire was extinguished.

You cannot enjoy perfect health, rosy cheeks and sparkling eyes if your liver is sluggish and your bowels clogged. DeWitt's Little Early Risers cleanse the whole system. They never gripe. Hefley Arcularius Drug Co., C. L. Smith, 117 South Tejon street.

A TRYING POSITION.

Colorado Springs Readers Will Appreciate this Advice.

A constant itching tries your patience. Nothing so annoying. Nothing so irritating.

As itching piles or eczema.

To scratch the irritation makes it worse.

To leave it alone means misery.

Some citizens can tell you how to be free from these troubles. Read the following:

Mr. E. E. Griswold, of 316 East Huerfano street, says: "I had occasion to use Doan's Ointment. Before I went to Jones & Wellington's drug store for it I had used everything that heretofore came to my notice; had been treated by doctors, but the trouble was not even checked, let alone cured. Doan's Ointment did das promised. It is worth many times its cost."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

CONTRACT LET TO LYNN S. ATKINSON

Lowest Bidder for Construction of Hillside School.

TO BE DONE IN AUGUST

Lecturer Will be Secured for High School Commencement. Judges for School Election Appointed.

Work on another new school building will be begun today.

At its meeting last evening the Colorado Springs school board awarded to Contractor Lynn S. Atkinson the work of erecting the new school building in the southeastern part of the city, to be known as the Hillside school. The successful bidder was the lowest of four. His bid states that the price for which he will perform the work is $21,145 and it is lower than the next higher bid by just $600. The other bidders were J. W. Atkinson, J. E. Chandler and Gillis Brothers.

The Hillside school is to be a frame building to be built of brick on a foundation of stone. The specifications call for a roof of slate. Mr. Atkinson stated last night that he would break ground today for the building and the contract with the school board will require him to have the building complete and ready to turn over to the school district by the 25th day of next August.

When the contract business had been disposed of the board proceeded to the consideration of the plans for the high school commencement. After some discussion of the matter it was decided to procure a lecturer to address the class at commencement instead of having the usual graduating essays. The selection of a speaker for the occasion was left to a special committee consisting of Mr. Thayer, Superintendent Dietrich and Principal Monroe. The commencement occurs June 6.

Judges for the coming school election, which occurs May 7, were appointed as follows:

At the high school—Mr. Thayer and Mr. Humphrey.

At the Lowell school—Mrs. Ormes and Mr. Hemenway.

At the Washington school—Judge Morris.

All judges are empowered to employ such assistants as they may need for clerks, additional judges, etc., from the teachers and principals of the city schools.

The matter of the election of the teachers for the next year was not taken up. The board adjourned indefinitely but it is expected that the election of teachers will be made the order for a special meeting to be called soon.

He Learned a Great Truth.

It is said of John Wesley that he once said to Mistress Wesley: "Why do you tell that child the same thing over and over again?" "John Wesley, because once telling is not enough." It is for this reason that you are told again and again that Chamberlain's Cough Remedy cures colds and grip, that it counteracts any tendency of these diseases to result in pneumonia, and that it is pleasant and safe to take. For sale by all druggists.

THE POLICE DOCKET was a scene of great activity yesterday morning. There were 15 cases on the police register when Judge Bostright called the court to order and it was almost noon before the last of them had been disposed of. They were all for drunkenness and vagrancy with the exception of one or two and fines ranging from $5 to $50 and costs were imposed. Most of them were allowed to leave the city, but some were committed and others allowed to go to work.

"I had piles so bad I could get no rest nor find a cure until I tried DeWitt's Witch Hazel Salve. After using it once I forgot I ever had anything like piles." E. C. Boice, Somers Point, N. Y. Look out for imitations. Be sure you ask for DeWitt's. Hefley Arcularius Drug Co., C. L. Smith, 117 South Tejon street.

FORGING AHEAD OF THE ORDINARY

Any man who would excel in an undertaking must be a diligent student. For the past ten years Dr. Ellison has made it the special business of his life to study and treat Consumption, Asthma, Catarrh, Bronchitis and Chronic Diseases of Men, Women and Children. That he is succeeding is beyond question of doubt. This is what we call "Forging Ahead" as a physician. Examination free. Office 21 North Tejon Street.

The physician who reaches the highest place in his profession is the one that is the closest student of nature's laws, and he who constantly applies himself to that branch of the profession he has chosen as a specialty. When Dr. Ellison began the study of medicine as a chosen profession it was with the full determination to so thoroughly apply himself that without boast or brag he could offer to the sick a treatment of scientific merit. Years ago he became fully convinced that no one man could become proficient in the treatment of both acute and chronic diseases, and for this reason he decided to treat consumption, asthma, catarrh, bronchitis and chronic diseases of men, women and children exclusively as a specialty, and during this time he has made a careful and persistent study of these diseases and the most effective methods of treating them. During the past three years of his residence in Colorado Springs hundreds have learned the fallacy of treating for chronic diseases with a physician whose time is given to family practice by being cured by Dr. Ellison after ordinary methods had signally failed. People who suffer from pulmonary, tubercuous and kindred diseases should not fail to make use of the doctor's attenuated sulphur treatment. Of about two thousand cases treated, only four have died in the past three years. This treatment can be taken at your home. Office, 24 North Tejon street (over Craigue's grocery store), where the doctor can be consulted free of cost, mornings from 9 to 12, afternoons from 2 to 5, evenings from 7 to 8 o'clock; Sundays from 2 to 3 p. m.

Wholesale Liquor Dealer, Distributor,
DENVER, COLO.

FREE GOLD SUES COMMONWEALTH

Wants Specific Performance of An Old Contract.

The district court has been asked to settle a dispute which originated years ago concerning the Deadwood lode mining claim in the Cripple Creek district. The Free Gold Mining company yesterday began a suit for the specific performance of a contract by the Commonwealth Mining company, a corporation. Charles J. Brinkley, Frank P. Moulton and Mrs. Mary C. Reynolds.

The complaint alleges that prior to 1894 the company had conflicting claims on the Deadwood property. The defendants applied for a patent to the claim in February, 1894, and the plaintiff protested and filed an adverse suit. There was a compromise, it is alleged, by which the plaintiff withdrew the adverse suit, upon the agreement that the defendants should secure the patent and give a certain portion of the claim to the Free Gold company. The patent was secured, but the plaintiff alleges that the Commonwealth company never surrendered the promised portion. Suit is brought for the possession of this property.

TO BUILD THE NEW CITY HALL

The first step toward the new city hall was taken at the council meeting last night, when Alderman Clark introduced the ordinance for a $110,000 bond issue for that purpose.

by title and went over under the rules. Ordinances for a $10,000 bond issue for bridge and viaduct purposes, for a $25,000 bond issue for sewer extension purposes and for a $25,000 sewer refunding bond issue also were introduced by title. These are the measures voted on by the people at the recent election.

ANTLERS PARK IS TO BE ENLARGED

The park site south of the Antlers hotel is to be improved at once. Alderman McIntyre last night introduced a resolution into the council meeting authorizing the Colorado Springs Hotel company to park the site and granting the company certain requests.

When the city deeded Alamo park to the county, the Colorado Springs Co. gave the city a piece of land just south of the Antlers. The hotel company proposes to park this site and give an additional piece of ground for park purposes which will make the park extend from the Antlers clear to Huerfano street. The hotel company asked that South Park place—the street running from Cascade avenue to Sahwatch street, be vacated as a street and be included in the park. This will make a solid park for that block. A foot path will be run though the park allowing pedestrians to get to the depot this way. Teams must go on the north side of the Antlers or on Huerfano to Sahwatch street in order to reach the depot.

Believing that this arrangement worked a hardship on no one, the council unanimously passed the resolution. The hotel company will maintain the park for the benefit of the public.

WARRANTY DEEDS—The following warranty deeds were filed yesterday: W. H. Davis to Mary Gibbie, $1,500, lots Nos. 1 and 2, block No. 54, addition No. 1; William H. Earle and Albert Davis, of New York, to Ralph J. Preston, $3,500, part of section No. 7, township No. 14, range 66 west; Lucy Curnyn to Henry O. Forston, $1,000, part of lot No. 23, in a subdivision of blocks Nos. 23 and 24, addition No. 1; Ida M. Bruner to William H. Wills, $2,000, part of lots Nos. 7 and 8, block No. 2, West Bluff addition.

I have been troubled with indigestion for ten years, have tried many things and spent much money to no purpose until I tried Kodol Dyspepsia Cure. I have taken two bottles and gotten more relief from them than all other medicines taken. I feel more like a boy than I have felt in twenty years."—Anderson Riggs of Sunny Lane, Texas. Thousands have testified as did Mr. Riggs. Hefley Arcularius Drug Co., C. L. Smith, 117 South Tejon street.

Plain and decorated water sets, $5c to $1.50, in Kaufman's basement.

BUILDING PERMITS—The building inspector yesterday issued the following permits: W. S. Rhodes, to build a cottage of six rooms and bath on lot 4 of block 18 on Corona street, to cost $1,500. Mrs. Giles Crissey, to build a residence of eight rooms and bath on the west 143 feet of lot 2 in block 203 on San Rafael street to cost $4,000. J. E. Booth, to build a cottage of three rooms on lot 17 of block 14 on West Pike's avenue to cost $500.

Special values in cut glass tumblers and champagne glasses in Kaufman's basement.

Dust-proof rooms for storage. Furniture packed. Padded moving vans. Wandell & Lowe, 112 Pike's Peak.

For the best bread and cakes go to the Park bakery, 214 N. Tejon street.

Always on Time to Denver.
The 8 a. m. train on the Colorado & Southern railway. It is one of the eight daily trains.

THE NEWS OF COLORADO CITY

GAZETTE'S BRANCH OFFICE:
M. K. Rankin's Coal office, 513 Colorado Avenue.

FOR THE FOURTH

Chamber of Commerce Plans a Celebration.

Visitors from the Entire State are Expected—May 1 Also a Big Day.

Colorado City will have a rousing Fourth of July celebration.

The chamber of commerce met in the council chamber of the city hall last night and decided to have a big celebration on the nation's birthday, and the following committees were appointed by the president: Finance committee, George Birdsall, C. D. Taylor and Adam Geiger; general committee on arrangements, W. P. Epperson, N. B. Hames, J. G. Faulkner, C. M. Sherman, C. D. Taylor, C. H. Corporan and John E. Allam.

It is the intention of the chamber to advertise the celebration by means of posters and newspapers in all the cities of the state, and to provide a good entertainment which will do justice to the Pike's Peak region. There will be races, band concerts, athletic events—in fact, everything that belongs to this kind of a celebration.

The hospital question was discussed at last night's meeting, but nothing definite was decided, and it will be taken up again at the next meeting.

The chamber contracted for enough to have 1,500 posters printed advertising a celebration on the first of May. On this day there will be a grand Masonic carnival, when that order will lay the cornerstone of the new Whittier school. The railroads will make a reduced rate for the occasion and a large crowd is expected to be in the city.

J. W. C. Seymour put in an application for membership in the chamber of commerce.

Judge McCeach reported that he had been to the council meeting in Colorado Springs and that a committee from the council of this city asked for an extension of the water mains to Grand View. Judge McCoach said that there was very little hope that the extension would be allowed as only $2,000 had been appropriated for Colorado City water. However, a committee from the Colorado Springs council will be in this city today to look over the ground and see what can be done.

SIX TEAMS MAY FORM A LEAGUE

There is talk of organizing an amateur baseball league in Colorado City and there are many enthusiasts who [illegible] that such a league would succeed. The Western league games in Colorado Springs would not interfere with the games in this city and prizes will probably be offered by the different lodges and business men to the winner of the pennant.

Already five teams are being organized in this city and it is thought that one or more can easily be gotten up. The American Annuity association was the first to organize a team and they were followed by the Woodmen of the World and the Fraternal Order of Eagles. Two more teams are being made up at the Standard smelter and the Colorado Midland shops and these will be ready for play in a short time. The two latter teams were organized to play each other as there is a good deal of friendly rivalry between the mills and shops, but it is thought that they can be induced to come into the league should one be organized. The "Three A" team has been practicing for some time and is already in good form. There are some good players in this aggregation but the Woodmen and Eagles think that they can put teams in the field which can compete with them successfully.

BREWER IS TO MAKE BRICK IN GLASSTOWN

Another enterprise which involves a large amount of capital and labor will soon be begun in this city. Ben Brewer, one of the brick contractors for the Antlers hotel, is associated with some of the best known Colorado City business men in the erection of a brick yard in Glasstown just south of the city. Work on the plant has already been started and will be completed as rapidly as possible. At present there is a great demand for brick in this section of the country on account of the great amount of building which is being done here, and Mr. Brewer is confident that the enterprise will prove a success.

The promoters will put about $50,000 into the project and when it is completed will have one of the best plants in the west for making brick. A spur will be run to the plant from the Colorado Springs and Cripple Creek District railway, thus making the shipping facilities of the best. Several kinds of brick will be manufactured.

BUILDING MATERIALS ARE HARD TO PROCURE

Mr. Ernest Wascott, who will soon start the erection of a handsome business block on Colorado avenue, is experiencing difficulty in getting the necessary materials for the structure. The securing of enough brick is giving him the most trouble but he expects to overcome this difficulty by the time he is ready to begin the erection of the walls. He will not delay the excavating for the block on account of the scarcity of brick.

Mr. Waycott has not fully decided upon the way his building will be arranged inside. He may devote a portion of it to flats or he may put in a large hall in the north end of the building. The third floor will in all probability be occupied by the Woodmen of the World as lodge room and banquet hall and the room for the new state bank will be on the corner. He may built it for four stores or he may decide to have only three rooms beside the bank on the Colorado avenue side. However the building is arranged it will be a handsome addition to Colorado City and will be a fine specimen of modern building. Mr. Waycott has only recently decided to have a basement under the structure and this will be ready for occupancy by July 1.

NEW CITY OFFICERS ARE RENOVATING THE TOWN

The new city physician is going with a vengeance after those who violate the sanitary ordinances of the city. He has been making an investigation of the town for the past few days and has ordered a number of cesspools and other things which are a detriment to the cleanliness of the city to be put in shape and as a result the town is in a much better condition than it has been for some time.

The street commissioner also is hard at work and the streets and alleys are being put in excellent condition. A large gang of men is at work daily under his supervision grading, cleaning and improving the streets and by the time travel begins to be heavy, Colorado City will look better than it ever has before. The old poles which supported the trolley wire of the street railway company will be out of the way, by that time as new ones are being put in as rapidly as possible. Some new trees will be set out soon and everything possible will be done to place the streets in the best condition.

HIGH SCHOOL SOON TO BE ESTABLISHED

When Colorado City changed from a city of the third class to one of the second class, school district No. 1, which includes this city, also changed from one of the third class to one of the second class. In view of this fact a number of important changes will have to be made in the city schools according to law, the principal one being the establishment of a high school in the city.

At present the Colorado City pupils are compelled to go to Colorado Springs to school if they are above the ninth grade and they must pay $40 per year tuition. Added to this is the car fare, which is no small item, and altogether the expense is a good deal more than many of the parents in this city can afford to pay. As soon as the school election is held, however, and the new board is thoroughly organized, a high school will be established here. It is very likely that one room will be large enough for the school at first and it will be located in either the Bancroft or the Whittier building.

BRIEF CITY ITEMS

POLICE COURT—Police magistrate continues to have a large number of drunks and vags in police court every morning. Yesterday court was convened at 8.30 instead of one hour later as usual, and there were six prisoners lined up before his honor at that time. All of them were drunkenness cases, and fines of from $5 to $10 and costs were imposed. Some of the prisoners were put to work on the chain gang and others were committed to jail but no fines were paid.

TWO PAY DAYS—The employes at the Colorado-Philadelphia Reduction Works plant, the Standard smelter and the Colorado Midland shops will be paid twice a month in the future instead of monthly as they have been in the past. The change in the rules was made to conform with a state law passed before the adjournment of the state legislature, and no doubt the men will be glad to learn of the change.

REAL ESTATE SALE—Charles L. Cunningham yesterday sold lots 6 and 7 in block 119, in Stump's addition, to William Gesford. The lots will be improved with dwelling houses.

NEW ROOF—The Templeton block is being covered with a new roof of tar and gravel. The old roof was little protection from the rains and snows and the K. P. hall, which is on the third floor of the building, was not a very dry place in time of storms.

BORN—To Mr. and Mrs. Gruber of this city, a boy.

REED BUILDING—The work of tearing down the old buildings which stood on the site of the new Reed building has been almost completed and excavation for the new structure will be begun soon. The other two Reed buildings, the Pendergast and "Pamona," are almost completed and will be ready for occupancy by the first of the month.

SPECIAL MEETING—The Modern Woodmen of America will have a special meeting next Thursday night for the transaction of unfinished business.

IS BUILDING—Contractor Zehr has begun the re-erection of his new dwelling house which was destroyed by fire a month ago.

FUNERAL—The funeral services over the remains of the late William Newcomb were held from Beyle's undertaking rooms Sunday afternoon at 3 o'clock, Rev. W. E. Powell of the Baptist church officiating. There were a good many old soldiers present and the interment was in Fairview cemetery.

YEOMEN—The local lodge of Yeomen held an interesting meeting in their hall last night and initiated a number of candidates.

EAGLES—The Eagles held their regular weekly meeting Sunday afternoon and received seven applications besides initiating some new members.

OYSTER SUPPER—There will be an oyster supper and entertainment at the Volunteers' hall next Friday evening. The proceeds from the affair will be used to pay the rental of the hall.

WARAGRAPH—The Waragraph company has closed its engagement of a week here and has gone to Manitou for two nights, after which it will depart for other sections of the state.

NEW RESIDENCE—Boyd A. Mullin has changed his mind about moving away from the city and will build a new residence instead on lots 29 and 30 of block 21.

TWO HOUSES—William Gesford is building two new houses for dwelling purposes, on the Boulevard.

PLASTERING—The council chamber [illegible] and otherwise repaired and improved.

PERSONALS

George Weller has gone to Cuba, Mo.

J. C. Day has gone to Pueblo.

G. T. Brock and wife have gone to Pueblo for a short stay.

F. D. Armstrong, who was formerly proprietor of the Keystone Grocery, has taken his family to Alton, Kas.

Miss Lulu Kohn, who has been visiting Mrs. Charles Monroe, is now visiting in Colorado Springs.

Gus Hames started in a wagon yesterday for Loveland, Colo. Mrs. Hames will leave in a day or two for Denver where she will join her son and go the rest of the way to Loveland with him.

L. L. Smith, of Cripple Creek, manager of the Colorado City Mining and Leasing company arrived in the city yesterday to attend a meeting of that company which was held last night.

Conductor B. L. Beynon, of the Colorado Midland railway, has moved from Colorado Springs to this city.

C. W. Bowman, who owns one of the largest saw mills in the Pemberton district, came to the city yesterday and purchased a lot in the Rustic Home addition.

Miss Maud Phelan is visiting relatives and friends in Leadville.

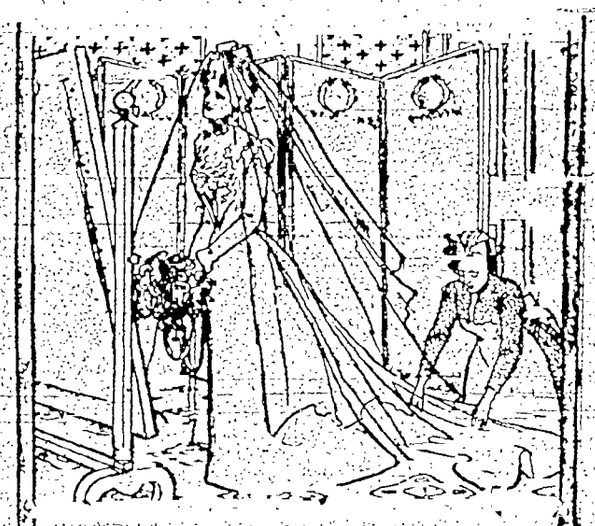
Charles Monroe is entertaining his mother from Marquette, Mich., at his home on Fourth and Boulevard.

Charles Bates, brother of Judge J. P. Bates, is in the city. He is agent for a book called "The New Education," and will make this city his headquarters.

The Most Common Ailment.

More people suffer from rheumatism than from any other ailment. This painful ailment, usually too, for a cure may be effected at a very small cost. G. W. Wescott, agent D. & H. C. Ry. Co., Meadowdale, N. Y., says: "I have been afflicted with rheumatism for some time and it has caused me much suffering. I concluded to try Chamberlain's Pain Balm and am pleased to say that it has cured me." For sale by all druggists.

"Last winter I was confined to my bed with a very bad cold on the lungs. Nothing gave me relief. Finally my wife bought a bottle of One Minute Cough Cure that effected a speedy cure. I cannot speak too highly of that excellent remedy."—Mr. T. K. Houseman, Manatawney, Pa. Hefley Arcularius Drug Co., C. L. Smith, 117 S. Tejon street.



A SUIT OF WHITE.

IN every cake of Ivory Soap there are 100 complete suits of rich, creamy lather. Before dressing, put on a suit of Ivory Soap. Cover the entire body from head to foot with lather. Take the suit off with tepid water and you will remove with it all the impurities of the body which have been carried to the surface through the pores. Use a pure soap for this.

IVORY SOAP—99 44/100 PER CENT. PURE

Economy of Fuel

The fuel required for one ordinary grate-fire or stove is sufficient to warm an entire house by Hot-Water circulation. The boiler requires less attention than does a stove; it is operated automatically and is absolutely safe.

THE QUARTO-CENTENNIAL INDORSED.

NOTHING was more notable at the meeting of the Arkansas Valley editors recently held at Salida, than the general good feeling expressed towards Colorado Springs and its people. The cordial indorsement of our Quarto-centennial celebration by the [illegible] association was only one of the manifestations of this feeling which was not confined to members of the editorial association, but was freely expressed by the people of the city. Neither is it confined to residents of the Arkansas valley but it is common to the people of all the state as has been frequently shown on previous occasions.

This feeling of good will towards Colorado Springs and its people is something that our own citizens do not realize as they ought to do and consequently do not profit by it as they should. The whole state feels an interest in Colorado Springs and looks to it as an example of a prosperous period and beautiful city of which the state may well be proud. More than that Colorado Springs has gained a wide reputation as a community of enterprising business men who have both the mental ability and the financial resources to make a success of whatever they undertake. There is no part of the state but would be glad to enlist the attention of Colorado Springs in the development of its resources, and none but feels that it would be benefited by a closer acquaintance and relations with our people.

Colorado Springs should promote and encourage this sentiment. One way that it can be done, and one of the very best ways at the present time is to make of the Quarto-centennial celebration something that will meet the expectations of our good friends in all parts of the state. In that celebration we should combine business and pleasure. We should give our visitors the best time they ever saw, and we should give them the most ample opportunity to direct attention towards their own resources and industries, and especially those that are in need of outside capital. The Quarto-centennial will attract thousands of visitors from outside the state, a large proportion of whom will be men of means who will be glad to learn of opportunities of profitable investment. On the other hand there will be within our city thousands of the people from the Arkansas valley, from the San Juan, from the western slope, from the northeastern part of the state who have a familiar acquaintance with all the wonderful natural resources of the state.

In preparing for our Quarto-centennial our main thought should be for our visitors and not for ourselves. Or rather, our own interests will be best served by promoting the interests of others. The right sort of a celebration may be made of incalculable benefit to this city, especially in the advancement of its commercial and investment interests.

The sentiment of the state is most favorable to us, and it would be an appalling blunder if this city should not make the most of this splendid opportunity.

EMPEROR WILLIAM'S POLICY.

IT IS not surprising that there should be in the German newspapers evidence of serious misgivings in regard to the imperial policy. For several years past the voice of Germany has been the voice of a single man, who has been giving an imitation of a one-man government that is inconsistent with the spirit of the nation over which he reigns, inconsistent with the temper of the age in which he lives, and at variance with the customs of the people with whom the Germans have most to do in international affairs.

The experiment has been a hazardous one, and the one thing that has made it possible has been the confidence of the Germans that it would result in strengthening the nation as a world power, especially in the commercial sense. The emperor has chosen to rule by divine right, but the German has seen in his "divine" king only a very efficient and enterprising business manager of the empire whose right to rule was to be judged not by the halo about his crown nor by genealogical tables, but simply by his ability to perform successfully the work that was required of him. If the emperor maintains the prestige and the prosperity of the nation it matters comparatively little to the subject whether he rules by divine right or by the authority of parliament; but if the emperor fails in his task, the pretense of divine right is no safeguard to the monarch and no restriction upon the people.

Just at present the evidence accumulates that Emperor William is not the majestic success that he has advertised himself to be, and the stockholders of his company, that is, the citizens of his empire, are expressing their dissatisfaction accordingly. They have no particular objection to divine right if it helps business, but when it seems to amount to nothing more than an increase in taxation, they are ready to declare it to be a failure.

In the past twenty years the world has seemed to react towards autocracy, but it begins to look as though the tide had turned the other way. The influence of the United States, France and South America is strong and it will become more and more so as American competition brings more forcibly to the attention of Europe the disadvantages of a system of petty states, each burdened with an expensive kingly establishment and bent upon surpassing its neighbors in military and naval extravagances. Emperor William has made a good fight for the cause of kings, and has succeeded better than most people expected he would, but his cause is a losing one, and the inevitable failure will make it just that much harder for any successor of him to try the same experiment.

Colorado people again have occasion to congratulate themselves on their superiority of weather. Last week was so very disagreeable that some residents of the state were inclined to declare that it was the worst that they ever saw. But a very cursory reading of the recent dispatches is sufficient to prove the contrary.

AGUINALDO'S PROCLAMATION.

THE proclamation issued by Aguinaldo makes it evident that so far as he is concerned the revolt against American sovereignty is at an end and it will soon be at an end so far as his influence and example can affect the result. Unfortunately it is not as certain as we would wish it to be that Aguinaldo will be able to influence his associate and subordinate rebels in the direction of surrender and peace. The news of Aguinaldo's capture was promptly followed by the announcement that Sandico had been appointed successor to the honors and emoluments of the position of dictator. Unfortunately for the junta and its prospects of cash receipts, the long distance patriots at Hong-kong, Washington and London made the mistake of selecting a gentleman who was already a prisoner of the Americans, and who, unlike Aguinaldo, was under grave charges of criminal actions including robbery and murder.

The action of the junta indicates that the struggle will be prolonged if possible and there are others who will refuse to be guided by Aguinaldo's advice. Mr. Towne, for instance, is prepared to continue the struggle to the last ditch and to sacrifice everything to the sacred cause except himself. Aguinaldo may have reached the conclusion that the Americans cannot be trusted, but Towne is still of the opinion that they are notorious liars. Aguinaldo, after conversation with Mr. Funston, is convinced that he can no longer be of service to his country in permitting himself to be chased through the swamps of Luzon; but ex-Senator Towne is ready to assert that Aguinaldo is making a great mistake in listening to Funston.

In spite of Mr. Towne and the junta it is probable that the Filipino revolt is very near its end. Aguinaldo's lack of influence is chiefly due to the fact that he is behind and not in front of his countrymen. The majority of his countrymen have already submitted themselves to American authority and that is the only reason why they cannot follow his good advice.

It is probable that the prompt acceptance of American sovereignty by Aguinaldo and his open desire for peace will have an effect upon some Filipinos who are still hostile, and it is probable that the pacification of the islands will now continue more rapidly than ever before.

A PROGRESSIVE SOUTHERN DEMOCRAT.

CONSIDERABLE attention is being given to a recent interview with ex-Representative Skinner published in the Washington Star. Mr. Skinner is one of those progressive men of the new south who believes that President McKinley has ably demonstrated his ability to perform what was promised by the Republican party at the beginning of his first term, and that the interests of the south will be best served by action along new political lines.

"A considerable element of the best men of the south," said Mr. Skinner, "believe in the policies which President McKinley's administration represents. They believe with the administration on all the important questions of the hour, and I think they ought to stand with it. Conditions ought to be and can be such as to enable men of the south who believe as the Republican party believes to become Republicans. The progressive business element of the south, men who are in sympathy with the national policy of the Republican party, cannot be influenced by federal patronage, but respectability of association is essential to the identification with the Republican party. The federal appointments in the south should be made from among the best people of the community—from the conservative business element of the old Democracy, where avowed Republicans are not available. The class of men in the south whose views of national public policy coincide with the policies of the administration is not composed of men who want federal office, their interest in patronage being merely a desire that the federal authority should be represented by the best class of citizens."

"What do you think of McLaurin's speech?" was asked.

"It was a good speech. The only thing I would like to take exception to in the report which I read is the declaration attributed to the senator that he is content to advocate within the Democratic lines the policy which he believes to be best for the south. The policy which he advocates, and which is advocated by many of the best men of the south, is that of the Republican party, and I believe their object would be attained with more certainty by proclaiming themselves as Republicans and contributing their character and influence toward the upbuilding of the party which stands in the nation for the principles in which they have faith. They think as Republicans, and should speak as such, joining with the president in the effort to elevate the party above local prejudice."

Such statements as those recently made by Senator McLaurin, Mr. Skinner and Captain Capers of South Carolina seem to indicate a breaking up of political parties in the south and their rearrangement along new lines. Nothing can prevent this but the complete surrender of the Bryan wing of the Democratic party, and in that event we look to see a revival of Populism in the south and the revolt of many of the present leaders.

PROGRESS OF THE PLAGUE.

ALARMING reports continue to come in regard to the spread of the much dreaded bubonic plague. From South Africa, from Australia, from southern Europe, as well as from Asia, the news is verified that the disease has found lodgment, and in fact there is scarcely any country of the world in which one or more cases have not occurred.

Modern science has been unable to stop the spread of the disease, though it has undoubtedly done much towards controlling its ravages and lessening its fatality. One of the most interesting and valuable discoveries in this connection is the part played by the rats in spreading the infection, and indeed it now seems probable that if the transportation of the germs by these animals could be prevented it might be possible to isolate and stamp out the disease in civilized countries.

It does not seem likely that the disease could make headway in the United States to a degree that would constitute a public danger, but this is not so certain. The reports from Australia and South Africa are alarming and the United States does not possess superior advantages over those countries in freedom from filth or a less crowded condition of population. It should also be remembered that modern civilization while unfavorable to the spread of disease in many ways, makes it much more difficult to enforce proper quarantine measures. The mails, the railroads and the newspapers become dangerous sources of contagion and it is hardly possible without an entire interruption of business to check a disease that becomes prevalent among a large number of the people.

The best line of defense is at the frontier. The United States authorities have been doing splendid work both on the Atlantic and Pacific coasts and as the reports from foreign lands grow more alarming they should redouble their vigilance. A single case of the plague admitted at one of the seaports and allowed to come in contact with the general public might be the source of untold harm, and the efforts of the federal authorities to prevent anything of this kind should have the cordial support of the state authorities and of the general public.

OPEN PARLIAMENT

Colorado's Oil Industry.

Colorado Springs, April 20, 1901.

To the Editor of the Gazette:

Shall Colorado Springs continue to be known as the most progressive financial center of the United States? At the present time this question comes most forcibly before the business men of our city, for with them the decision rests. Denver lost its prestige, its influence, and a large amount of wealth throughout Colorado by ignoring the interests of the various sections of the state, thus knocking away the ladder by which she had attained the heights of prominence and prosperity. Colorado Springs seized the opportunity, and while Denver was giving the cold shoulder to state enterprises our capitalists stepped to the front, encouraged the development of Cripple Creek and today the result is seen all round.

Events now happening prompts the question, shall Colorado Springs commit the same error as Denver?

Through the development of oil in Colorado and Texas considerable attention has been directed to the immense deposits of oil existing in Colorado, and large sums of money are being used for its development. For some years the Florence field has produced and marketed thousands of barrels of oil annually, but it is a mere trifle to what can be accomplished in other parts of the state, where geological experts assert much larger reservoirs of oil exist.

Rio Blanco and Routt counties are the sections to which at present attention is directed, and if local capital will lend its aid to the development of those districts the western part of the state will contribute a new source of wealth to the general prosperity of Colorado. What position is Colorado Springs going to maintain towards the oil industry? So far many of the capitalists have played the role of damning the industry by faint praise, fearful that the development of the oil industry will work adversely to the development of mining. Our mining works admit that advices from the eastern states all indicate that investors in those sections are purchasing oil stocks instead of mining stocks, and to a certain degree have endeavored in this way to account for the recent depression in mining shares. But that as it may, the writer is of the opinion that the position taken by the foregoing gentlemen is wrong, and will work to the detriment, not only of our thriving city, but that of the brokerage business. Such an attitude may retard, but it cannot stop the development of the oil producing land of Colorado, and for this reason it would be an irretrievable mistake for our city to let this opportunity pass by. When it was sought in New York to establish exchanges for the handling of cotton, wheat, and produce, the members of the stock exchange gave it their encouragement, and the result of this broad-gauged policy is exemplified today, for whereas some few years ago the transactions of the stockholders only amounted to some $400,000,000 weekly, last week they totaled over $2,000,000,000. Thus it is shown that the development of one interest in any state means the growth of the whole. Perhaps Colorado will never produce an amount of oil that will equal the value of our gold production; but it can produce enough to amount into many millions of dollars annually. Even now, this product brings to the state something like $1,000,000 a year, and it will only require very little effort to increase this sum tenfold.

With these facts before them, our citizens will admit that it will be to the interests of Colorado Springs that it become the principal center of the oil industry instead of allowing Pueblo or Florence to grasp the golden opportunity.

If the business men of Colorado Springs can by their enterprise add some $10,000,000 annually to the production of wealth of our Centennial state it is a foregone conclusion that it is impossible for this to be a detriment to our mining interests. Gold we have in plenty, oil we have in plenty, and if Colorado Springs will only follow in the future, as in the past, the broad-minded policy of encouraging every legitimate enterprise that will bring wealth to Colorado, the growth and prosperity of Colorado Springs will have a stronger foundation and thus will not be shaken by a temporary dullness in any one line.

A Sensible Idea.

Colorado Springs, Colo., April 20, 1901.

To the Editor of the Gazette:

Gentlemen:—The writer has read with interest the editorial in your issue of April 15, headed "Keep the Last Posted," and woul say that the same appears to contain a good deal of horse sense. Some two years ago quotations on some thirty stocks were daily published in the Cleveland papers, at which time the writer became interested in some of the Cripple Creek stocks, and with friends invested some thousands of dollars. Since that time the publication of these quotations has entirely ceased, so that instead of knowing what was done the day before we must now get the news two days late by buying a New York paper, or three days late by waiting for the Gazette. Of course, if ticker quotations were to be had that would beat the newspaper publication by a day, and would be still more valuable.

Whereas a year ago the writer knew a number of persons who were buying Cripple Creek stocks, today nearly all of them have dropped that market entirely simply for want of early and accurate information. Very truly yours,

F. W. Treadway.

Marry to Stop Competition.

(Iowa State Register.)

The metal polishers and brass workers union of Chicago has a novel method of fighting the competition of women as employes, and is just now making an effort to drive the new woman out of the factories by finding her a husband. C. B. Myers, who is one of the leaders of the union, says that women have no business to do brass polishing, as it is the most unhealthful business they could undertake and the men are going to get them something better to do. To be plain about it, the men are going to marry them and put them to work in the home instead of in the factory. Myers says that in the Wolff Manufacturing Company alone "the men set about marrying the women, and in the last year and a half we have made about seven matches. We are not trying to freeze them out, but simply try to get them something better." Mr. L. Wolff, who is at the head of the firm mentioned, says he noticed that there was an unusual number of weddings among the employes but that he had no idea there was a conspiracy among the men to thus settle the problem of competition. The firm has no objection to the plan, however, and in fact is inclined to do what it can to encourage the movement. President E. J. Lynch, who is at the head of the union, thinks the new way of meeting the competition of women as employes is a good one and is of the opinion that the gentler sex ought to be barred from this class of work. Such legislation can never be obtained, however, and could never be justified, for a woman has as much right to earn her living as a man. She does not do so from choice, and the men who are the loudest in their protests against her employment are just the kind who force her to work in the office, shop or mill. If she had an industrious, honest and manly husband she would not have to work outside of her sphere, the home.

New & Second Hand Furniture

A Thousand Men

Win a competency by quiet saving and judicious investment where one gets rich by speculation. It is not so much the amount made as the amount saved that counts in the long run. And if the sums saved are made to earn interest the result is still more pronounced. Banks usually pay no interest on deposits. Savings banks pay from two to four per cent. per annum, and in some cases five per cent. The Assurance Savings and Loan Association earns and pays to depositors dividends ranking from 4 to 19 per cent, according to the character of the stock held in each case. Call for its descriptive matter at 109 E. Kiowa street.

Clean Coal.

Coal is black—there's no getting away from that; but what we mean by clean coal is that it's free from unnecessary dirt, slate and stone; that it burns practically to clean ash; that it gives out little or no smoke, and that sulphurous fumes are just about eliminated—which, briefly put, indicates that our coal is a fine coal for fuel and cooking.

FIRST NATIONAL BANK BLOCK

Trusts Iron Bars to Shield Her From Harm

Willie William Burney, colored, better known as "Dicey," who beats his wife with a cane in North park Sunday afternoons, is walking the streets without trouble, the victim of the assault is in jail on an old charge preferred by the man assaulted her. Mrs. Burney would have been relented by Justice of the Peace Ruby on her own recognizance, but she heard that her husband was out of jail and begged so hard to be sent to jail for fear "Dicey" would beat her when he was released with Sunday. Burney was released and on the ticket of arrest at the police station the charge of "assault with intent to kill" was registered. It is customary for the man to go before a justice of the peace and make complaint against persons accused of this charge, but the victim does not do so. It was not done in this case, however, and not only was no charge entered against him, but he was released the Sunday night without being required to go through the formality of furnishing bonds. As security for his appearance in the police court this morning he left a watch and several other trinkets. The police charge the police say they will make a case when Friday for "disturbing a disturbance." The police state, however, that a "wholly reliable man has agreed to take Burney in police court this morning and that the prisoner will be on hand in the proper time."

It was not long after Burney's release before he showed further evidence of his animosity towards his wife, Mexie. Two weeks ago he had sworn out a warrant for her arrest charging her with the larceny of about $60, most of which he had laid to have found afterwards in his home. This warrant was served yesterday by the sheriff's office and Mrs. Burney was taken before Justice Ruby for a hearing.

At the district attorney's request Justice Ruby announced that he would release the prisoner on her own recognizance for a hearing today. But Mrs. Burney refused to go free.

"Send me to jail, Judge," she begged. "My husband is around the streets somewhere and I'm afraid he'll kill me if he gets a chance."

So the prisoner was taken to jail, where she would have no fear of being molested. She will be arraigned today on the charge brought by "Dicey."

Burney has the reputation of being a quarrelsome man. The police records show that several years ago he struck a man over the head with a hammer, nearly killing him. He served two and a half years in the penitentiary for the crime, being released in November, 1899.

Justice of the Peace Ruby disposed of the following cases yesterday:

People vs. Ray McFarland; dismissed.

Newton Lumber company vs. Benjamin Stagg; set for April 27.

Newton Lumber company vs. George H. Sherrock; set for April 27.

Justice Wing gave judgment for $21.55 for the plaintiff in the case of Clark vs. Terjon.

Otto Kappler Closed Broadmoor Deal

Mr. Otto Kappler, the well-known caterer, of Denver, has just secured a three years' lease on the Broadmoor hotel and casino, and it was announced yesterday that the resort will be opened early under the new management. The opening ball at the casino will take place about June 15.

Associated with Mr. Kappler as assistant manager will be Mr. Charles [illegible] assistant manager of the Hotel Metropole in Denver. Mr. D. Chisholm, representing the owners, encouraged by the liberal patronage of last year, is contemplating extensive improvements to the buildings and the grounds.

The new management proposes to increase the amusement facilities at the casino. The musical concerts, as heretofore, will be the first in importance, and in addition specialties of a high order will be introduced.

Mr. Kappler is now in Europe, but will return in about two weeks, when a large force of workmen will be engaged to further beautify the already attractive Broadmoor. Mr. Kappler is an excellent hotel manager, and is familiar with the demands of an amusement seeking public. There is every indication that the coming season will be the greatest in the history of the famous resort at Broadmoor.

Strange Accident Almost Took a Life

Ed. Goodnight, one of the cooks at the Star restaurant on Huerfano street, almost killed himself yesterday morning by cutting his throat with a butcher knife. It was an accident, but had the knife struck him a little lower down it did he would have severed the windpipe and jugular vein and death would have ensued before a physician could have been summoned.

Goodnight was cutting some pork chops with a cleaver in the kitchen of the restaurant when he made a misstroke and struck the handle of a large knife which was lying on the edge of the meat block. The knife flew up and the sharp edge struck him under the chin, cutting a gash about four inches long. A surgeon was summoned at once and after the wound was sewed up the man was taken to his home extremely weak from loss of blood.

Ten stitches were taken in the neck.

Dr. Patton's Talk at Perkins Hall

The fathers and their sons—old men who had not heard their college yell since the days when they left their alma mater, and young men whose lusty lungs cheered it to the echo, gave President Francis L. Patton of Princeton university such a welcome at Perkins hall last night as will not soon be forgotten by those present. Of course the mothers and daughters and sisters were there too to swell the chorus of welcome. It was a representative Colorado Springs audience.

Dr. Patton's talk was addressed principally to the college people, and Colorado college certainly did itself proud, for as many of them as could crowded into the hall, and when they all got there, there wasn't much of the school left outside.

Dr. Patton is a typical college man—replete with ideas, possessing an odd vocabulary of classical terms accentuated with the epigrammatic slang of the "varsity man." His wit is sharp and constant.

"The mental issue of the day," he said, "is sharp, decisive and soon to come to a crisis—it is a struggle between out and out naturalism and out and out theism." In his lecture on Spinoza, Dr. Patton gave an elaborate explosion of "the mental issue."

"The same kind of logic that destroys your religion, destroys your science, your basis of morality, and on this latter rests the sanctity of the home, the state and the nation. You cannot rest your faith upon a basis of mere natural-istic evolution. What is this world coming to if we are to believe that the destiny of the universe is in the hands of four or five physicists or scientists, any one of whom is likely to die at any moment?

"Who will believe that the flowers of Christianity will preserve their fragrance upon the dead, dry sticks of Atheism?

"At the trend, the aim and purpose of education is to learn of the objective world, about us, that is, our environments, and to subdue the subjective world within us."

WARRANTED WANT ADS GROWING

Did you notice how many of those warranted want advertisements were in the Gazette Sunday? The more people find out about the returns they bring the more they use them. That's natural. Most everybody has something to put before the public through these want ads. They are willing to pay the small cost when they find out that we take the risk. As more people inquire about the plan the amount of want advertising grows larger. That's because it's a most liberal business proposition. Everybody says so after they thoroughly understand it. There is no quicker or cheaper way of selling or renting things, making trades, securing situations or help or finding lost articles than the using of Gazette want ads, and on this warranted plan, which costs no more, the Gazette takes the risk.

Council Allowed Nicholas' Claim

President McIntyre occupied the chair at the adjourned meeting of the council last night. Mayor Robinson was present for a few minutes at the opening, but left after making a statement concerning the miniature railway. Alderman Ashworth, was the only member absent. Much business was disposed of.

A. M. Nicholas, who conducted the case for the plaintiffs to decide the alleyway question, presented his bill for $250 against the city. He stated in a communication, that, while he had not been authorized by the city to institute the case, the city reaped the benefit as it decided the validity of the council and averted any litigation over the acts of the council. Many aldermen objected to allowing Mr. Nicholas anything on the ground that it was a bad precedent to allow bills which had not been authorized by the council. While holding to this opinion himself, Alderman St. John moved to allow Mr. Nicholas $100 and his expenses, or a total of $125. On the vote Messrs. Clark, Capell, McIntyre, Patton and St. John voted aye and Messrs. Banning, Hawkes, Madden and Stark voted no. With five ayes, four nays and one absent the president declared the motion carried and the bill allowed. Alderman Madden and others contended that it required six votes, or a majority of the whole council, to pass a financial measure, but President McIntyre held to his ruling upon the advice of the city attorney.

A petition from the Associated Charities, through E. Evans Carrington, secretary, asked the council to appropriate $500 to assist the association in purchasing the old county jail for a charities home. Mr. Carrington was allowed the floor and stated that the building would cost $5,000 and $3,000 had been provided for. He said prominent business men of the city asked the purchase of the property. Mr. Carrington stated that with a permanent home, it was expected to make the charities self-sustaining and by appropriating this sum the city would save itself much money in caring for its own cases. Mr. Carrington said that the money would be borrowed if the city would promise to appropriate it next year. The petition was referred to the finance committee.

Upon recommendation of the mayor the following were appointed special police without pay: Thomas Armstrong, H. S. Harris, Moses T. Hale, A. T. Pooley, John Chapman, Dr. P. O. Hanford, B. W. Ryer, O. H. Preaker, Sam Shollenburger, William McPeak, W. J. Claw, Smith Gee, George McCauley, J. A. Jeancon, E. G. Carey, R. H. Cunter, William Friend, J. A. Hopkins and James McCabe.

The city engineer and the auditor were ordered to compute the Colorado City water bill and make the same out. A committee of Colorado City gentlemen, composed of Aldermen Allam and Corporan and City Attorney McCoach, asked for an extension of the water mains into the north part of the city. The matter was referred to the water committee.

Luke M. Parsons, of Cleveland, wrote asking to be considered in the sale of refunding bonds. The American Bankers' association, of New York, asked to be permitted to advocate the issue of refunding bonds.

The official bonds of E. W. Case, city engineer, and E. C. Davis, water commissioner, were accepted, having been approved by the city attorney. The former was in the sum of $3,000 and the latter $10,000.

The bond of J. A. Hopkins, water superintendent, in the sum of $2,000 and that of George H. B. Hall, storekeeper, in the sum of $10,000, were accepted subject to approval as to form.

J. H. Alabury was re-elected guardian of the city parks and H. N. Dodson was reelected caretaker of Cheyenne canon.

Bids for parking Cascade avenue were called upon the clerk. Owing to objections as to the manner of advertising for them, they were not opened but were laid over until the attorney could investigate.

The city engineer was instructed to establish the grade for the full length of Walnut street and also for Incline street in Cheyenne canon.

The cemetery committee was empowered to pipe water to lots G, H and I.

The Little Railway Was Side-Tracked

Action on the miniature railway for Cheyenne canon was not taken at the council meeting last night. The matter was deferred because of opposition from many residents in the city.

Mayor Robinson left the meeting almost as soon as it was called to order, but before leaving he stated to the council that because of the opposition Messrs. Dana and Kerr, the promoters of the road, were willing to have the matter deferred until it could be properly presented to the people. Judge Kerr was allowed the floor. He stated that he and Mr. Dana wished to get the road ready for the summer visitors but did not wish to push it against opposition.

In answer to objections Judge Kerr said that coke would be used in place of coal so there was no danger of the canon being filled with soot and smoke; that the engine would be so small that they could not afford to waste any steam so there would be no danger of frightening horses by whistling; that the track would be so narrow that there would be no danger of marring the beauty of the canon. Judge Kerr stated further that Mr. Dana would give the city a $10,000 bond to protect the city against any damage to the canon, etc.

"We court an investigation of our plans and purposes," said Judge Kerr, "and in order to get it we are willing to let the matter lie over until the next meeting of the council." No action was taken by the aldermen, but the franchise was laid over by general consent.

BOUGHT GROUND

School Board Purchased Lot Adjoining Lowell Building.

Secures from the Colorado Springs Company 50x190 Feet at a Very Low Figure.

Ostensibly for the purpose of acquiring more ground for the pupils at the Lowell school to play upon, the school board has purchased a lot 50 by 190 feet in size, north of that school building, in addition to the property already owned there. While for the present this ground will be enclosed with a large brick fence and used as a play-ground, it will be available in the future, when the condition of the building becomes again so crowded as to necessitate an addition.

Several years ago the Colorado Springs company offered this lot to the school board for $700. Since that time there have been several offers to the company by people willing to pay $1,000 and more for the lot, but the company has held it, wishing to dispose of it to the school board if possible.

A few weeks ago the board decided that it would purchase the lot and the company, when asked to put a price upon it, said that the old proposition could be regarded as still available, and the board promptly closed the deal at the extremely low figure of $700. At the board meeting last night Secretary Colling was instructed to draw a warrant for this amount and pay for the lot immediately.

This purchase gives the school board about sixty-five feet of ground north of the Lowell building.

COLORADO ITINERARY OF BAR ASSOCIATION

The twenty-fourth annual meeting of the American Bar association will be held at Denver on Wednesday, Thursday and Friday, Aug. 21, 22 and 23, 1901. After the meeting the resident members of the American Bar association, as well as the members of the bar of Colorado, have arranged the following trip, to be made by the officers and members of the American Bar association and their families:

Aug. 24—Leave Denver, Saturday morning on Denver & Rio Grande; stop at Colorado Springs. From Colorado Springs to Cripple Creek by "Short Line."

Aug. 25—Leave Cripple Creek Sunday afternoon on Florence & Cripple Creek railroad. Leave Florence on Denver & Rio Grande railroad for Salida. Stop at Salida.

Aug. 26—Leave Salida in morning on Denver & Rio Grande railroad for Grand Junction in the evening on Colorado Midland for Glenwood Springs.

Aug. 27—Leave Glenwood Springs in the morning on the Midland. Short stop at Leadville. Leave Leadville for Denver on Colorado Midland railroad.

Judge Moses Hallett is vice president, and Charles M. Campbell of Denver is the secretary of the local council of the American Bar association for Colorado.

COPPER MOUNTAIN

Gives Promise of Being the Scene of Much Activity A Good Strike on the Delmonico.

Special to the Gazette.

Cripple Creek, April 22.—The Copper mountain section gives promise of being the scene of much activity this summer. A great deal of work has been done there in the past week with very encouraging results, but if indications are taken as a criterion it would appear that the necessary depth has not yet been obtained. Work is to be resumed on the Bear Mountain tunnel, driving through Copper mountain, and it is stated that this work will be commenced this week. The company was forced to discontinue operations some time ago on account of encountering a heavy flow of water.

The Dunham lease on the Prince Albert has an excellent showing. The lease is controlled by W. R. Dunham of Los Angeles, Cal. He is operating through a tunnel and although the breast of the bore is not more than 60 feet from the surface, there are 150 tons of ore at the mills and 50 or 60 tons more in the bins awaiting shipment. While the ore is of low grade, averaging in the neighborhood of $12 a ton the extent of the shoot insures big profits.

Strike in the Delmonico.

A good strike has been made on the south end of the Delmonico, being operated by the Rocky Mountain Leasing company. At a depth of 150 feet a crosscut was run 30 feet east to a fault having a northeast and southwest trend. When cut the vein showed no values, but the management decided to drift north upon it for 20 feet. Near the face of the drift a few shots were put in the night and a lead of ore that assayed about 50 ounces and assayed $29 to the ton was opened. The ore is a blue quartz and is flattering. The leasing company will continue to risk upon their find.

The Champion Consolidated Gold Mining Co., operating the Haven hill territory, has drifted into ore having the same characteristics as that formerly mined in the Thompson and now owned by the Elkton company. An extra shift has been put to work to thoroughly develop the find.

Fourteen tons of ore from the Solitaire lease on the Columbia, on Beacon hill was settled for this morning at the rate of $120 to the ton. The ore was sampled at the Eagle sampler.

During the past week Burtis & Miller, leasing the Findley dump, shipped a 10-ton railroad of washings, and received returns of four ounces to the ton. The lessees have two washers at work and are installing a third. Their lease expires in October and by that time they expect to have the big dump all treated.

A mining deed was filed in the county clerk's office today, showing the transfer of a two-twenty-fifths interest in the Ramona and Ramona No. 2, and the same interest in the territory in conflict between the War Eagle and Ramona lodes, the Lucy and Ramona and the Nighthawk and Ramona from Verner Z. Reed to C. C. Hamlin. Stamps indicated the consideration to be $1,000.

The Cove Boy M. & D. Co. has granted to the Sunrise M. & L. Co., a five-years lease of the Cove Boy lodes Nos. 1 and 2 and the Almighty Dollar lode. The Sunrise company, in consideration of the lease, agrees to perform $100 worth of work each year upon the grounds during the life of the lease.

WILL GO OUTSIDE OF COLORADO TO REORGANIZE

Mining Companies Are Considering This Step to Save Themselves From the Burden of An Intolerable Taxation--The Discrimination Against Foreign Companies Is Probably Unconstitutional.

Mining companies with high capitalization incorporated under the laws of Colorado may be driven to other states to reorganize to escape the extortionate taxation imposed by the new revenue law. A company with a capitalization of $1,500,000 will be obliged to pay a tax of $75 a year, while the companies with a higher capitalization, such as $3,000,000 or $5,000,000 and there are one or two small companies so burdened, will be obliged to pay $150 to $250 a year, which will be intolerable, if not impossible to some of the companies.

Under the new law it is more expensive for a company organized under the laws of another state to operate in Colorado than one incorporated here, as a foreign company is required to pay 10 cents per $1,000 of capitalization, or $150 for a capitalization of $1,500,000. It is [illegible] that this discrimination which amounts to a tariff against other states, is unconstitutional and cannot be enforced. A precedent was established which will hold good in this instance when an attempt was made to impose a tax on drummers who lived in other states from which Colorado drummers should be exempt. The supreme court decreed that a tax might be imposed on drummers, but that all drummers must be subject to the same taxation.

It is thought that this will effectually dispose of an increased taxation for mining companies organized under the laws of other states.

What the mining companies, or those which object to the taxation propose to do, is to organize in some other state with a capitalization 10 or 120 per cent lower, the $1,500,000 companies incorporating for $150,000 or $15,000, and so on, reducing the amount of the taxation accordingly.

A company with a capitalization of $1,000,000 would be obliged to pay $50 a year, but if it should re-incorporate with a par value of one cent instead of one dollar, or for $10,000, it would escape taxation altogether, as companies of less, are exempt. A $15,000 company would have to pay a nominal tax of $1.50 a year, or a $150,000 company would pay $15 a year; and even if the discrimination against foreign companies could be made to stick, these nominal taxations would just be doubled.

NATIONAL WILL RECAPITALIZE

A Meeting Called to Add 500,000 Shares to the Present 1,500,000 Shares--Circular From the Secretary.

The directors of the National M. T. and L. company have called a special meeting of the stockholders to be held on May 25 in Cripple Creek for the purpose of increasing the capitalization by 500,000 shares to pay off the indebtedness of the company and acquiring a development fund. This is a refutation of the statement of a local paper to the effect that the capitalization would have to be raised extravagantly in order to pay off the company's burden of debt.

The circular issued by the company is as follows:

To the stockholders of the National Mining, Tunnel and Land company:

Herewith find notice of special meeting of the stockholders of this company, called for the purpose of increasing the capital stock of the company from 1,500,000 shares to 2,000,000 shares. The object of such increase of stock is to provide means to pay off the debt of the company, which now amounts to about $10,000.

At the time your present board took control of this company, there was a debt against it of some $12,000, which has been reduced by the sale of part of the Mariposa stock in the treasury of the company.

The Red Bird claim of the company is now under lease to good lessees, and shipments of ore are being made from time to time, but the royalty received from same is not sufficient to pay the interest on the debt and reduce same to any extent, so that it is deemed advisable to increase the capital stock as above so as to provide for the debt, stop the interest charges and, at the same time, give the company a small fund to pay taxes, etc.

It is proposed to sell 250,000 shares of this new issue to stockholders, pro rata, at 5 cents per share, which would pay off the indebtedness and leave some $2,000 in the treasury of the company.

We trust you will send us your proxy for use at this meeting, as by pursuing the above policy it would prevent any possibility of the property of the company being sold in order to settle the debt. Revenue stamps will be attached at the office of the company on all proxies used. Respectfully yours,

William P. Sargeant, Secretary.

DETROIT ASSAYS IMPROVING

One Taken Across Five Feet of Ore Yesterday Afternoon Ran $110.40--The Lessees Are Pushing Development.

The strike on the Detroit property on Tenderfoot hill, which was reported in these columns last week, is assuming more important proportions. Last Saturday the values seemed to become scattered, and the vein did not have so favorable an appearance, but Sunday it widened out to nearly five feet, and the ore averaged better than it had at any time before. So far as it was drifted on yesterday the shoot had a very strong appearance and the lessees are more encouraged than they have been at any time since the strike.

A telegram received at the offices of the company yesterday stated that the assays had been improving. Sunday it widened out to nearly five feet, and the ore averaged better than it had at any time before. So far as it was drifted on yesterday the shoot had a very strong appearance, and the lessees are more encouraged than they have been at any time since the strike.

A telegram received at the offices of the company yesterday stated that the assays had been improving. Sunday the Elkton assayer took a sample across the breast which went $48, and this afternoon an assayer from Varney & MacArthur's took a sample across the breast, which ran $11.40.

Ore bins are to be constructed as rapidly as possible, and the lessees hope to make a good production from the start.

WATER IS EASILY HANDLED IN THE PORTLAND MINE

It Has Always Been Provided for in a Businesslike Way--Big Flow Handled During Some Months.

The article published in the mining department of Sunday's Gazette relative to the water question in the Cripple Creek district was very favorably commented upon on all sides yesterday. As an aftermath, as it were, it was pointed out that one need go no further than the two last annual reports of the Portland company, to see how very simple a matter it is to cope with any amount of water if it is only gone about in a practical and business-like way.

Reference to the reports in question shows the truth of this statement for the water situation as it affects the Portland company, is referred to very fully by President Burns. In the report for 1899 he says:

"One of the most serious obstacles the management had to contend with the past year was the enormous flow of water encountered at the 800-foot level, Burns shaft. It was not before August that the large Knowles triple expansion pump was started; it handled the large flow of water very easily, so that at the present time (February, 1900), the water has entirely disappeared, the mine being practically dry. During the first six months of the year the average number of gallons pumped was 18,000,000 per month; for the year (1899) 27,000,000 gallons per month, at a monthly cost of $6,000. This amount fairly represents the saving in mine expense between the present time and that of one year ago."

Regarding the water situation during the past year President Burns in his report says:

"The water question, which was one of the most serious obstacles the management had to contend with during the year 1899, practically ceased during the month of January, 1900, when no pumping was done whatever, but upon resuming the sinking of the Burns shaft a large flow of water was encountered during the month of February, which greatly retarded the sinking of the shaft. The water gradually increased in flow until the month of August, during which there was pumped [illegible] flow decreased until the month of December, when only 13,200,000 gallons of water were pumped, or [illegible] average [illegible] only necessary to use the large station pump [illegible]

"The total number of gallons pumped during the year 1900 [illegible]

From the above it will be seen that not only is the flow of water in the Portland property reducing as depth is added, but that the flow has at all times been handled in a quiet, business-like and economical manner. Principally because of the knowledge and foresight of the president of the company the management has at all times been ready for any emergency. At the start the mine was provided with a small pump, but as time went on larger and still larger ones were provided, so that the mine was always prepared for a big flow if it came. When one fully understands the large flow of water which has at times been handled at the mine and the great depths from which it has been necessary to raise it, one can better appreciate the skill of the management in coping with it, especially so because it has been done in a business-like way and without flurry or excitement.

MINING NOTES AROUND TOWN

Telegrams received from Beaumont, Tex., state that business there is being carried on under great disadvantage, owing to the absence of clerks, stenographers, etc., and to the scarcity of offices. Every mail is bringing in great quantities of subscriptions to the different companies which have been floated, and it is with great difficulty that they are answered, and only after considerable delay. The companies are proving immensely popular, and are rapidly over-subscribed. The Grace stock is still being subscribed to, and when it is found that the original 10 cent stock is all gone, so great is the desire to invest, that options are taken on a block at 15 and 20 cents a share. The second company which the Dorsey Investment company has put out, the Federal, is proving to be almost as popular as the Grace.

GOOD ORE FROM LEASE ON GOLD BOND.

At a depth of 140 feet in the Hummer lease on the Gold Bond property, a good production is now being made from a vein about 200 feet from the shaft. Ore is being saved for a shipment which will leave the property in a few days. The shaft which the company is sinking on another block of the property is attaining a good depth, and a crosscut will soon be started to open the ground thoroughly. The property is located on Gold hill, and has been coming to the front rapidly in the past few months.

SPRATT BROTHERS OPEN SHOOT IN 400-FOOT LEVEL.

Spratt Brothers, operating a block of the Lonaconing of the El Paso Consolidated have just reached the ore shoot from their new 400-foot level, and find it even richer than it was above. For some time production was hampered by the fact that much of the ore had to be hoisted from a winze in the 300-foot level before it could be got to the shaft, but it is now available from the main workings. The ore is of good width and runs into the smelting grade.

CROSSCUTTING ON THE BOSTON AND C. C. GROUND.

Crosscutting has been started on the property of the Boston and Cripple Creek company on Tenderfoot hill for the ore shoot which was opened in the 300-foot level, and it is expected to be reached in a short time. Tenderfoot hill is coming into an ever-increasing prominence, and the installation of electric hoists on the properties of the King Gold, Hard Carbonate and Helen B. properties will greatly expedite development work.

500 TONS A MONTH FROM ANCHORIA-L'S CONUNDRUM.

The Anchoria Leland company is maintaining an output of 500 tons a month from its Conundrum claim on Gold hill. The ore shoot, although it is of a somewhat irregular appearance, has been proved up for a distance of 200 feet, and some very high values have been obtained at different times, and the average is a decidedly good grade. The vein lies along the contact, and it is thought that an ore body has been opened which will be productive for a long time. As soon as it is proved up a little further, a new perpendicular shaft will be sunk and equipped with modern machinery. At present the workings are intricate.

IT CURED THE DOCTOR

New Scientific Dandruff Treatment Recommended by a Physician.

Mrs. Mary C. Crawford, Oakesdale, Wash.: "Herpicide cured me perfectly of dandruff and falling hair."

Dr. E. J. Beardsley, Champaign, Ill.: "I used Herpicide for dandruff and falling hair, and I am well satisfied with the result."

Alf. R. Kelly, 2125 L'Adelo street, San Francisco: "Herpicide put a new growth of hair on my head. Herpicide does more than is claimed."

Herpicide kills the dandruff germ. Destroy the cause, you remove the effect—dandruff, falling hair and finally baldness. At all druggists.

Piles Cured where Knife Failed.
Thos. Elwood, 815 17th St., Sacramento, Cal.—"One 50 cent box of Pyramid Pile Cure permanently cured me of piles. For 30 years I suffered untold agony. I had tried operation, nearly died, but failed to cure. I was unable to walk when I tried Pyramid Pile Cure. The first application relieved me." All druggists sell it. Book free by mail. THE COLORADO SPRINGS MINING STOCK EXCHANGE.

Colorado Springs April 22.—The market opened indolent and enervated with no exhibition of vitality, with the single exception of the trading in Detroit. A little strength was manifested in the mines list, although not the slightest interest was taken in the trading, and, while the market seems to have suffered no net loss over the prices of Saturday, still the tone is not quite so healthy as it was toward the close of last week. The market is willed and anemic, as if all its blood had been drawn off, and, from the flushed and apoleptic appearance of New York stocks it doesn't seem impossible that the larger market is sapping the vitality of the smaller.

The afternoon call developed no new features in the general aspect of the market. Trading in the mines was unusually light, only eight stocks were traded in. Anaconda was 40¼. Butterfly opened at 44 and closed at 45. Elkton closed at $1.63. Gold Dollar 18 and Isabella 70. Trading in the prospects was medium. Alamo was 8⅞, Missouri 8½, Progress 4½, Navajo 1½, Silver Gold 1½, Quito 3½. In the unclassified department Detroit was the most active. It opened at 2½ buyer 30, and closed at 3½. Gold Sovereign was 6¼, Hermosa 1½, National 4½, Sedan 9½, Zoe inactive at 4.

The total amount of the sales for the day was 443,956 shares, of which the cash value was $10,129.00.

EASTERN MARKETS

New York Market.

New York, April 22.—The extraordinary activity of the speculation is witnessed by the record of the aggregate sales for the day, which rose again to 2,252,500 shares, compared with the previous record on Friday of 2,193,400 shares. The character of the market showed a marked change from that of the latter part of last week, when the tendency was distinctly upward throughout the list. There was great variety in the speculation and extreme irregularity in the movement of prices all day, and there was a resumption of the feverish tone which had broken in on the "present extended" advance in prices at various times. It was obvious that there was very heavy profit-taking going on in stocks, which have shown the greatest strength recently, but the bulls had the situation fairly well in hand through the early part of the day and the process of shifting the speculation from one set of stocks to another, which has gone on in constant succession all through the period of the rise, seemed to be going on in a normal manner. The weight of the profit-taking became so formidable, however, and the violent manipulation of special stocks by which it was sought to sustain prices became at once palpable that the bears made a powerful concerted attack on the market in the final hour. They offered prices down by rapid steps without meeting any effective support, taking the market away from the bulls who were eagerly taking their profits. The relapse from the high point was very violent in some stocks and the level of the whole market was carried well under Saturday's. The violence of the decline invited some quick profit-taking by the bears, whose covering demand caused a few sharp rallies, but the general tone was weak at the close.

New York Money Market.

New York, April 22.—Money on call steady at 3½@5 per cent; last loan, 4 per cent; ruling rate, 4 per cent. Prime mercantile paper, 4@4½ per cent.

Sterling exchange strong, with actual business in bankers' bills at $4.83¼ for demand and at $4.83¾@4.83¾ for 60 days. Posted rates, $4.85¼@4.86 and $4.87. Commercial bills, $4.84@4.84½.

Silver certificates, 60c. Bar silver, 60¾c. Mexican dollars, 48¾c.

Bonds Governments steady; state inactive; railroads irregular.

Chicago Grain and Provisions.

Chicago, April 22.—Bullishness was rampant in the wheat and corn markets today. Nearly the whole gamut of news affecting these markets worked for higher prices. Corn, after an exciting day, during which prices were over the highest previous level, closed with an advance of 2 cents, while wheat registered a closing bulge of 1½ cents. Oats closed ⅛c higher and provisions unchanged.

Cash quotations were as follows:

Flour—Firm.

No. 2 spring wheat, 70@72c; No. 3 spring wheat, 65@71c; No. 2 corn, 46c; No. 2 yellow, 46c; No. 2 oats, 26½c; No. 2 white, 28@28½c; No. 3 white, 28½@29c; No. 2 rye, 57½c; good feeding barley, 46; fair to choice malting, 55@56c; No. 1 flax seed, $1.68; No. 1 northwestern, $1.69; prime timothy seed, $3.67½; mess pork, per bbl, $14.60@14.67½; lard, per 100 lbs, $8.02½@8.25; short ribs sides (loxed), 7½@8½c; dry salted shoulders (boxed), 8@8½c; short clear sides (boxed), 8½@8¾c; whisky, basis of high wines, $1.27; sugar, cut loaf, $6.14; granulated, $5.87; confectioners' "A," $5.87; off "A," $5.29; clover, contract grade, $11.00.

Articles.	Receipts.	Shipments.
Flour, barrels	21,000	20,000
Wheat, bushels	75,000	20,000
Corn, bushels	152,000	252,000
Oats, bushels	433,000	432,000
Rye, bushels	6,000	21,000
Barley, bushels	4,000	27,000

On the produce exchange today the butter market was firm. Creamery, 19@22c; dairy, 11@15c. Cheese, 9¾@11c. Eggs, fresh, 12c.

Elgin Butter Market.

Elgin, Ill., April 22.—On the board of trade today 200 tubs of butter sold at 20 cents. The official market was quoted steady at 20 cents, or half a cent lower than last Monday.

Denver Produce.

Denver, April 22.—Market opened in fairly good condition and business very satisfactory for the first day of the week. Prices generally rule about steady. Eggs are showing more weakness than any other line and, lower values are expected during the week. Supply of dressed poultry was fair and market a bit easier, than has been the case for some time. There will probably be enough fresh dressed stock to supply the demand this week. It has not been so for weeks past. Vegetables and fruits are expected to show considerable life this week. Supplies will be more liberal and demand good.

Butter—Market steady. Elgin (official), 20½c; standard—Colorado creameries, 25c; second grade creamery, 24c; dairy, fancy single makes, 15@18c; store packed, tub or pail, 12@14c; cooking butter, 11@12c; country roll, 14@15c.

Eggs—Ranch, 14c; state, 13½c.

Cheese—Colorado cheese, 11@12c; Colorado bricks, 13@14c; Wisconsin twins, 12½@13½c; Kansas or Nebraska twins, 12½@13½c.

Poultry—Dressed firm. Turkeys, 14@15c; hens, 11@12c; springs, 14@15c; ducks, 11@12c; geese, 10@11c.

Colorado Springs Market.

Colorado Springs, April 22.—The prolonged scarcity in poultry and eggs seems now to have been effectually ended. Supplies are plentiful and the market easy.

Butter—Standard creamery, 25c; second grades, 24c; ladle goods, 15@20c; fancy dairy, 12@15c; cooking, 11@12c.

Eggs—Ranch stock, per case, $4.20; state, per case, $3.90.

Poultry—Dressed stock: Turkeys, 13c; broilers, 25c; hens, 10c; springs, 12@15c; geese, 10@11c; ducks, 10@12c.

Coffee Market.

New York, April 22.—Coffee—Spot, quiet. No. 7, invoice, 6¾c; mild, quiet; Cordova, 8¼@12¼c.

When the Curtain Falls

and you sit down to your after theatre luncheon, a delicious requisite is a bottle of

Saint Louis A·B·C· Bohemian

"King of all Bottled Beers."

appetizing and health giving. Its perfect purity, beautiful color and sparkling brilliancy will endear it to the heart of every connoisseur, while its rich hop flavor is indescribably pleasing to the palate. The Ideal Family Beer.

GOOD SHOWING AT TURRET

One of the Mines Being Developed Into a Regular Shipper--Railroad Facilities to Be Improved.

Time detracts nothing from the renewed interest in the Turret section that took such an impetus at the time of the great strike in the Vivandiere several weeks ago. The fact that the Vivandiere was only classed as among the commonest of the early-day prospects and the fact that it is the first mine in the district go well together to promote faith on the part of all property owners and prospective investors. Every man that comes out of the camp is now enthusiastic, and as time goes on the enthusiasm increases. This is because the underground development of the Vivandiere continues to show increased values and increased ore deposits. As the drifting goes on it is found that the ore in the west drift is as good and steadily continuous as was shown in the shaft where the pay was encountered. In the east drift the ore is consistently growing better and the body larger.

Preparations for regular shipments of ore are still in progress as the development continues. Ore bins are being provided so that the ore can be sorted and handled to advantage. Arrangements must be made with the Rio Grande company for shipping the ore. The best plan seems to be for the company to put in a siding some distance above Hecla junction on the old Calumet line at a point where the wagon road from Turret crosses the railroad. This point is about three miles from the Vivandiere mine, which is just above the town of Turret. There is another point spoken of that is further up the branch line that will reduce this distance considerably. With this sort of arrangement shipments can be made with good profit. Part of the ore in the Vivandiere is very rich, and of course this would pay to ship from Salida but to accommodate all the ore that will soon be going out of camp there should be a shipping point provided on the Calumet line in order to allow the miners a profit that will enable them to continue development.

The Jasper, which is considered the best property in the camp so far as shallow workings are concerned, is taking out considerable rich ore in the development of the property. The least of it is worth over a dollar a pound, while there is a good vein that would pay to ship with proper facilities provided.

As soon as the Anaconda working shaft is sunk to the vein it will be ready to ship. The old shaft disclosed a fine body of ore with high values, but the workings were not in shape to justify anything more than some prospect work. The new shaft will be approximately perfect, and its completion means the addition of another shipper to the camp.

And the prospect for ore shipments is not the only thing that should encourage the railroad company to provide a better means of access to the camp. Supplies will have to go in as well as the ore to come out. The railroad can haul machinery, builders' supplies and provisions into the camp cheaper than they can be taken in by wagon. Certainly the Rio Grande should be alive to the existing circumstances and aid in pushing the work that has already been so well begun.—(Salida Record.

OIL POSSIBILITIES

Some Reasons Why Colorado Springs and Pueblo May Look Forward to the Creation of a New Industry.

A good many people seem to think that the subdued excitement which is beginning to stir the citizens of Colorado Springs and Pueblo in connection with the search for oil in the valleys of the Fountain and the Arkansas is merely a reflex of the craze that has taken hold of the people of Texas and California; that it will run its little course and presently subside.

As a matter of fact, however, the possibilities for the discovery of oil in both these valleys are more than respectable. The United States government surveys show the bounds of several oil basins, one extending from Florence to the neighborhood of Pueblo, one with its western rim lying just east of that city, and another taking in the greater part of the Fountain valley.

So far the only work done in either of these basins is the bore known as "Stratton's well," near the town of Fountain where, according to the best information obtainable, a moderate flow of gas has been encountered; though the fact that the inquiring public has been denied access to the scene of operations has given rise to a good many wild stories of the discovery of oil in paying quantities.

In Pueblo several companies have already been formed to prospect for oil in the neighborhood. The first of these to get itself into working order is the Pueblo Oil Wells company, whose organizers are substantial citizens, well known in the community; men whose common sense conduct of the enterprise may be anticipated from their established business reputation.

The scene of their proposed operations is a comparatively level stretch of high land, lying some 10 miles southwest of Pueblo and three or four miles south of the Arkansas river. Several years ago a Pittsburg oil man, in the course of a tour of the valley from Pueblo to Florence and back, going up one side of the river and down the other, "expected" Boggs Flats as the place to bore for oil. His opinion was that a 3,000-foot hole would be needed, but the chances for oil he regarded as very good. Both before and since that time other people have held the same opinion, and now the citizens of Pueblo are bestirring themselves and propose to find out whether, among the many natural advantages they already possess, there is or is not a tributary oil region awaiting exploitation.

The Pueblo Oil Wells company, which has already let a contract for sinking, is a modest concern, capitalized at $40,000, and divided among a large number of subscribers; for nobody is permitted to purchase more than 500 shares, while most of the subscriptions have been for lots of 100 to 200 shares. The directors make no boast of what they intend to do—but they intend to do it, none the less. They will go down 3,000 feet, or more, if necessary; they will expend their funds with care and judgment; and they will strike oil if oil is there. They make no high-sounding promises, but they have a comfortable confidence in the success of their undertaking; a confidence which is shared by others of their fellow-citizens who have organized companies with the object of boring for oil in the same district.

Should this confidence prove to be justified the enterprising shareholders will reap a deserved reward. But beyond and besides the personal benefit they will obtain, they will have created a new industry, the advantage of which to the city of Pueblo is as yet beyond computation.

LEGAL NOTICES

Notice of Special Meeting of Stockholders

Notice is hereby given that a special meeting of the stockholders of the Gould Mining and Milling Co. will be held at room 41, in the Postoffice building, in the city of Colorado Springs, the county of El Paso, and state of Colorado, on the 24 day of May, 1901, at the hour of 10 o'clock a. m., for the purpose of ratifying and confirming the action of the board of directors of said company, at a meeting of said board held on the 1st day of April, A. D. 1901, reorganizing said company under the name of the Gould Consolidated Mining company, with a capital stock of $[illegible] shares; the capital of said company in excess of $[illegible] 000 shares to be used in acquiring property and liquidating the present indebtedness of the Gould Mining and Milling company, and for such other purposes for which the same may be required.

Dated at Colorado Springs, Colo., this 1st day of April, A. D. 1901.

(A. seal) D. W. EYANO, President.
E. M. HURDY, Secretary.
First publication April 7, 1901.
Last publication May 2, 1901.

SEALED BIDS
Will be received by the city treasurer of the city of Colorado Springs, until April 23, 1901, at 4 o'clock p. m., for the following horse feed:

Hay	Cracked corn
Oats	Oil meal
Bran	Salt
Chop	Straw

Oil cake, for bedding.

The aforesaid bids to be delivered as wanted between the first day of May, 1901, and the first day of August, 1901.

The city reserves the right to reject any and all bids.

By order of the city council.
Geo. Mynes, Jr., Hale Cody
City Treasurer and Purchasing Agent.
April 11, 1901.

Notice of Dividend No. 8
The Mary Mahoney Mining Company
Notice is hereby given that there has been declared a dividend of [illegible] per share, payable April [illegible] to stockholders of record on that date. The books will close for transfer of stock April [illegible].

A. C. Van Cott, Secretary.

LEGAL NOTICES.

DEFERRED ANNUAL MEETING

Notice is hereby given that a Deferred Annual Meeting of the Stockholders of the Colomont Gold Mining Company, of Colorado, will be held in the city of Colorado Springs, Colorado, in the office of the Alice Gold Mining Co., at the National Bank, on Friday, April 26th, 1901, at 4 o'clock p. m., for the election of a Board of Directors for the ensuing year and for the transaction of such other business as may properly come before a deferred annual meeting of stockholders.

The transfer books of the company will be closed at noon on April 26th, 1901, and reopened one day after the final adjournment of the meeting.

Charles [illegible], Secretary.

First insertion April 15, 1901.
Last insertion April 29, 1901.

A SPECIAL meeting of the stockholders of The Buffalo and Cripple Creek Gold Mining company for the purpose of considering the question of increasing the capital stock of the company and issuing bonds of the company, will be held at the principal office of the company, at Colorado Springs, Colo., at 12 o'clock noon, on May 8, 1901. John E. Lundstrom, secretary.

Notice of Annual Meeting
The annual meeting of the stockholders of The Colorado Springs Hotel company, for the election of directors and for the transaction of such other business as may properly come before said meeting, will be held at the office of the company in the Gazette building, Colorado Springs, Colo., on the first Monday (6th day) of May, 1901, at 12 o'clock noon.

Thos. J. Fisher, Secretary.

WEATHER PROGNOSTICATIONS.

Washington April 23—Forecast for Colorado: Partly cloudy Tuesday, probably showers. Wednesday fair, easterly winds.

HANDS ON—In Ashby's window.

ALAMO DANCE—Thursday night.

Trunks repaired. Wise, 14 Pike's Peak.

Diamonds—$40.00. Ask by a winner. McClay.

For trunk repairs go to H. T. O'Brien's trunk factory, 25 South Cascade.

Piano moving a specialty. The Colorado Springs Transfer Co., 17 Pike's Peak.

Dyeing of all kinds nicely done at 22 South Sierra. Cleaning, Work 10c. Kitt's Shop, 21 Pike's Peak.

Have you seen the 3113 Pike at the Columbia Bicycle Co., rear 113 N. Tejon.

MID DAY PRAYER—The undenominational noon tide prayer meeting will be held in the First M. E. church today.

W. C. T. U. CONVENTION—The annual convention of the Woman's Christian Temperance union will be held in the North Christian church May 7, 8, 9.

NEW JEWELRY—Just received, a fine line of jewelry, so go to South Tejon's cut rate jeweler. It will pay you to call on him during the latter part of the week.

HIGH HARBAUGH'S DISTRICT—The ladies of Mrs. Harbaugh's district of the First Presbyterian church will meet with Mrs. John Campbell, 615 South Nevada avenue, Tuesday afternoon at 2.

ROYAL ARCH DEGREE—Stated convocation of Colorado Springs chapter No. 6, R. A. M., this evening at 7:30 o'clock. Work in royal arch degree. Visiting companions cordially invited to attend.

FOR FAST DRIVING—William Tanner, a deliveryman for the Colorado Springs Transfer company, was arrested yesterday for fast and reckless driving and was ordered to appear in police court this morning.

WOMAN'S RELIEF CORPS—A special meeting of the Woman's Relief Corps is called for Tuesday afternoon at 3:30 o'clock at the G. A. R. hall. All members requested to be present as business of importance is to be transacted.

RUNAWAYS CAUGHT—Fred Proctor, Clarence Wentworth and Charles Lee, three runaway boys from Leadville, were arrested in the Rio Grande depot Monday afternoon by Detective Dayton. Two of them were released later but the third, Charles Lee, will be held for some time after him.

SHORT LINE LITERATURE—The Short Line is preparing to issue an attractive folder containing photographs and descriptions of the magnificent scenery along its route between the city and Cripple Creek. The folder will have an artistic cover and will have an attractive typographical appearance.

PIKE'S PEAK CAMP—All members of Pike's Peak Camp No. 5, Woodmen of the World, are requested to be present at the meeting this evening to assist in the initiation of thirty-eight candidates. He who brings an application with you. All candidates who have received notice are urgently requested to be present at this meeting.

LEASED WITH SHORT LINE—A party of promi[illegible] New Yorkers, interested in the Cripple Creek Huntington mining property, arrived in this city Sunday. They were met at the depot by J. N. Wilson and H. L. Ivy. They made the trip to Cripple Creek from this city over the Short Line. It is generally understood that they have asked the railroad officials to secure them photographs of scenes along the line.

CAUSE OF MUDDY WATER—The water company is busily engaged keeping the water as free from mud as possible. The heavy snow disturbed the water and the lakes in Bear Creek canyon have become the Half Way House. They have to be cleaned about once a day. It was the large influx of fish into the Half Way House lake that caused the muddy water last week. The water is due to be clear for a few days, but during the warm weather and afternoon showers the water is melting the fastest it has been in the mornings when the sun goes down it is at least roily. Superintendent Hopkins says the water will have to be let alone until the muddy water is over.

Sure of This

You may be sure when you have

GUTMANN

Fill your PRESCRIPTIONS.

ONE—That the compounding will be done by a thoroughly trained and experienced registered pharmacist, who is paid a salary sufficiently large to make it worth his while to do the most careful, conscientious work and

TWO—That you will get nothing but pure fresh first quality drugs put into the prescription and

THREE—That every prescription we put up undergoes a system of checking up which makes mistakes next to impossible.
